This book is the first monograph derived from the online periodical called *Asia-Pacific Forum on Science Learning and Teaching* (APFSLT) which is dedicated to the dissemination of innovative methods for the learning and teaching of science in schools. Apart from the 3 prominent educators' articles, there are nineteen articles selected from the first 3 issues of the APFSLT after some internal and external reviews. This monograph consists of 5 parts (with 186 pages in total) as listed below:

- Words from prominent educators
- Basic research
- Innovative teaching methods and exemplars
- IT resources and usages
- Primary science curriculum

plus a CD-ROM for containing all the relevant multimedia resources.
