

Course Title	:	Story Reading in Chinese to Non-Chinese-Speaking Children 非華語兒童故事聽講聽讀
Course Code	:	CSL2001
Department	:	Early Childhood Education

Synopsis

This course promotes student abilities to read and tell stories in Chinese to young non-Chinese speaking (NCS) children. Through engaging in this way, student understanding of story reading and story-telling for NCS children will be enhanced, as will their understanding of members of NCS communities in Hong Kong. Involvement in story reading and story-telling activities with young children will extend students' social-cultural engagement with a range of ethnic groups and facilitate critical reflection on the challenges NCS children have in speaking and becoming literate in Chinese.
