Proposed Topic / Strands

Presentations may focus on any topics or strands related to Education, Language and Literature, Linguistics, Psychology, Neuroscience and Al & Machine Learning. These include, but are not limited to:

Education

- Educational Studies
- Curriculum, Teaching and Assessment
- Education Leadership and Future Schools
- Sports Science and Sustainability
- Education with AI and Digital Technologies
- Learning Sciences

Language and Literature

- Culture and History
- Language and Identity
- Dialects and Regional Variations in Literature

Linguistics

- Sociolinguistics
- Multilingualism and Mobility
- Second Language Acquisition
- Psycholinguistics
- Semantics and Pragmatics
- Corpus Linguistics
- Language Policy and Planning and Family Language Policy

Psychology

- Social Work and Counselling
- Applied / Educational Psychology

Proposed Topic / Strands

- Neuropsychology and Psychopathology
- Positive Psychology

Neuroscience

- Neural Networks and Computational Neuroscience
- Cognitive Neuroscience
- Neuroimaging and Brain Mapping
- Neuroplasticity and Learning

Al & Machine Learning

- AI-powered Adaptive Learning and teaching
- Learning Analytics and Educational Data Mining
- Deep Learning and Machine Learning Algorithms
- Ethics in AI application
