香港教育大學

The Education University
of Hong Kong

Bachelor of Education (Honours) (Primary) - General Studies (Five-year Full-time) 小學教育榮譽學士 - 常識 (五年全日制)

EdUHK ranked **2nd in Asia** and
9th in the world in Education
(QS World University Rankings by Subject 2018)

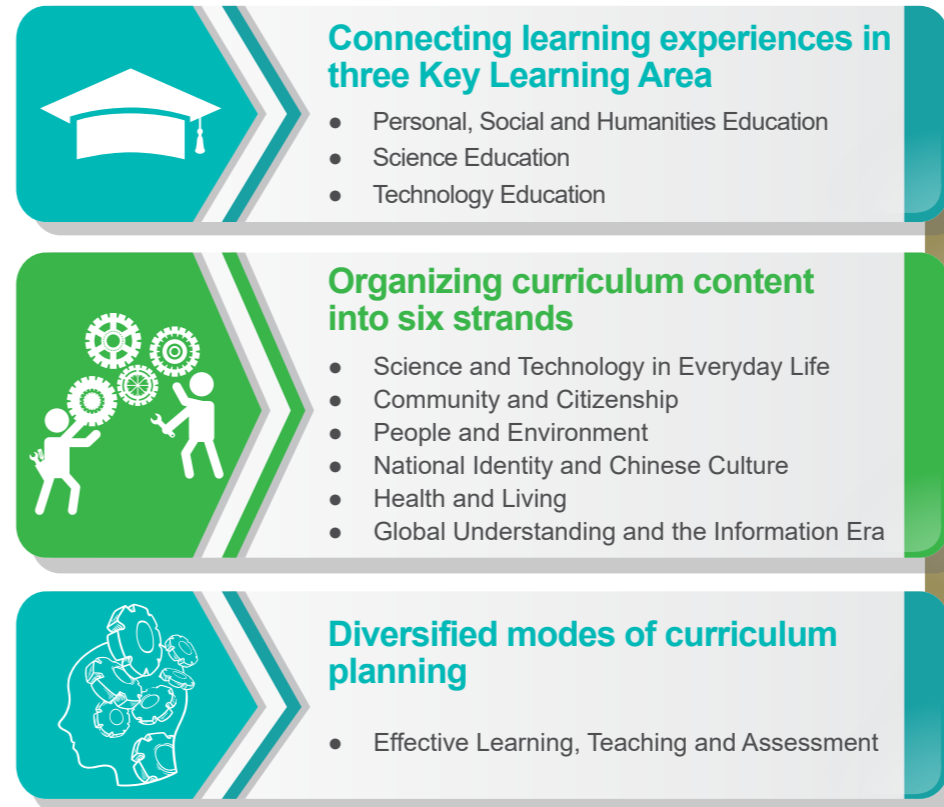

Programme Aims

General Studies is a core subject in Hong Kong primary schools, with most primary school teachers required to teach this subject. It is also an important vehicle for Civic, Moral and Sex Education. At present, The Education University of Hong Kong is the major provider of a full-time degree programme aimed at training prospective General Studies teachers for primary schools.

Taught as an interdisciplinary subject, the General Studies Major aims to prepare outstanding primary school teachers who:

- 💡 possess the **generic skills** (e.g., problem solving, critical thinking, creativity, study skills, communications, information technology, etc.) that are essential for learning in the Information Era and for making sense of social and environmental issues;
- 💡 are well-acquainted with the **spirit and methods of inquiry**;
- 💡 are well-equipped with the **social and scientific inquiry skills** that come into play in the teaching and learning of General Studies;
- 💡 have the **competence** to ride the tide of the new curriculum reforms; and
- 💡 are able to play **a significant role** in curriculum development in the school context.

Student Sharing's

General Studies programme is interesting and useful. I really enjoy learning science-related courses with hands-on and minds-on activities. I applied the teaching methods learnt at EdUHK in my teaching practice. I'm happy that my students enjoy learning during the lessons.

I have no regret for choosing General Studies as my major. It's so much fun and I can learn many things here, including science and social science. This major helps me to understand that the world is big and motivates me to learn more.
