Part II

The University's Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Sub-degree, Undergraduate, Taught Postgraduate, Professional Doctorate and Research Postgraduate students consist of the following three domains (i.e. in short "PEER & I"):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:

1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
- 4a. Oral Communication Skills
- 4b. Written Communication Skills
5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives

1. Course Synopsis

This course focuses on preparing students to conduct an innovative social research project in Honours Project II: Research Report. It equips students with skills and knowledge in problem identification, design thinking, literature review, research methods, prototyping, ethical principles and the elements of research process within quantitative and qualitative approaches. Students will be required to prepare a research topic to be presented in the tutorials. They will then be required to write up a research proposal using the knowledge they learn and the comments gathered in the tutorials.

2. Course Intended Learning Outcomes (CILOs)

Upon completion of the course, students will be able to:

CILO₁ demonstrate an understanding of the basic principles of research methods in Greater China Studies, both qualitative and quantitative;

CILO₂ show analytical skills in research and the awareness of research ethics;

CILO₃ write a literature review to examine the existing theories and knowledge in relation to the research topic;

CILO₄ select appropriate methods for the collection and analysis of data;

CILO₅ write a research proposal to form the basis of the study in Honours Project II.
