

SCALING UP REFORM: MAKING EDUCATIONAL REFORMS MATTER - FIVE PROVOCATIONS -

Professor Brian Caldwell
Managing Director and Principal Consultant
Educational Transformations

Provocateur at the Asia Leadership Roundtable
Bangkok, 14 March 20011

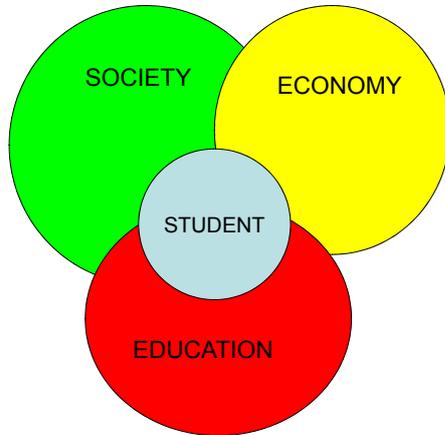

Provocation 1: Context!

Are contexts so different that there is little we can learn internationally from national case studies of successful and unsuccessful efforts to scale up reform on things that matter?

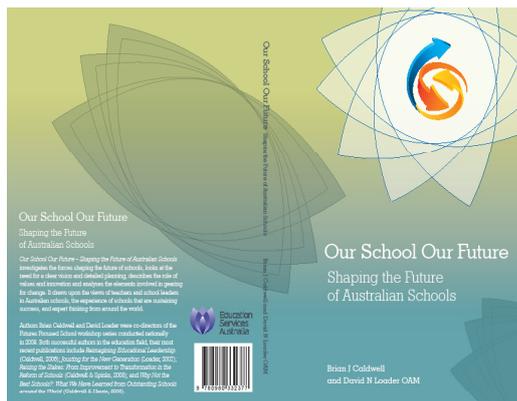

Provocation 4: Isolated!

Are researchers, policymakers and practitioners in education too isolated from counterparts in other fields?

Provocation 5: Stuck!

Are we still stuck on an improvement (Education 2.0) rather than a transformation (Education 3.0) agenda?
