

Dr. David Ng Foo Seong

National Institute of Education

Email: david.ng@nie.edu.sg

David is Associate Dean of Academics Quality at the National Institute of Education (NIE), Singapore. He provides overall leadership, management, and improvement in academic, student, and programs quality.

David's most recent work is on reframing educational success. His published work on "Future-ready Learners: Living, Learning, and Lifework" has been adopted to inform graduate and learners' outcomes in Institutes of Higher Learning and schools. He provided insight on future-ready learning to the United States International Education Study group, which led to their publication of 'The Time is Now'.

His work on Future-ready Learners was also shared in the 2022, 77th United Nations General Assembly in a chapter "Educational Leadership for Future-ready Learning: The Singapore Case. The chapter is part of the report on Education Reimagined: Leadership for Transformation - Applying A Global Capabilities Leadership Framework That Informs the Growth of Future Leaders.

David's future-ready learners provide directions for educational transformation based on country-specific economic, cultural, environmental, and educational contexts. His work was presented at the World Innovation Submit for Education (WISE) in short case studies - 'A Systems Approach for Future-readiness: Case of Colombia and Peru'.
