Prof. Chen Shuangye

East China Normal University

Email: shuangye126@vip.126.com

Prof. Chen Shuangye is a leading education scholar at East China Normal University, specializing in educational leadership and policy studies in China's evolving social context. Her research examines critical issues like social justice, institutional change, and education governance through innovative qualitative approaches. With publications in top international journals and editorial roles for academic publications, she bridges theory and practice while challenging conventional perspectives. Currently investigating curriculum innovation and policy responsiveness, Prof. Chen believes education embodies power, freedom and recognition - a transformative force for societal progress. Her work reflects a deep commitment to advancing educational equity through rigorous scholarship and leadership.
