Department	: Department of Asian and Policy Studies
Credit Points	: 3
Contact Hours	: 39 (30 hours of lecture & 9 hours of blended learning)
Pre-requisite(s)	: Nil
Medium of Instruction	: EMI
Course Level	: 6

Part II

The University's Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Undergraduate, Taught Postgraduate and Research Postgraduate students consist of the following three domains (i.e. in short "PEER & I"):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:

1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
- 4a. Oral Communication Skills
- 4b. Written Communication Skills
5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives

1. Course Synopsis

This elective is designed for the Master of Public Policy and Management (MPPM) students in the specialization of social policy. The aim of this survey course is to equip students with foundation knowledge on health policy, a key field in the social policy arena. The comparative perspective adopted will enable students to go beyond theories and examine health policies internationally with concrete cases. The course starts from a systematic survey on health care, health market, health care financing, provision, and public health, followed by a systematic review of health policies in selected countries and regions. Emerging contemporary health policy issues will also be covered. Students will engage in comparing and contrasting health policy arrangements and issues in Asia and beyond, with the purpose of understanding their policy background, system design, and major challenges. Students will experience a variety of pedagogies in this course, including lecture, seminar, movie-screening and discussion, instructor-guided group project, and field visit. Students will get the opportunity to visit representative public hospitals in both Hong Kong and Mainland China, in order to deepen their understanding on the health systems closest to them.

2. Course Intended Learning Outcomes (CILOs)

Upon completion of this course, students will be able to:

CILO₁: Understand the key concepts and theories of health policy studies.

CILO₂: Understand major components of health policies in practice, and types of health systems in the world.

CILO₃: Appreciate evidence-based policy orientation and acquire essential analytical tools in conducting health policy analysis.

CILO₄: Critically analyse challenges to health policies posed by various external and internal changes.

3. Content, CILOs and Teaching & Learning Activities

Course Content	CILOs	Suggested Teaching & Learning Activities
(a) Introduce the key concepts and theories in health policy studies.	CILO _{1,2}	➤ Lectures
(b) Analyse the principles and practices of system planning, financing, provision, regulation, and so on.		➤ Class Discussion
(c) Review the major types of health systems in the world and health policies of selected countries and regions.		➤ Group Research
(d) Introduce useful analytical tools in health policy analysis.	CILO _{3,4}	➤ Case Study

(e) Evaluate and compare health policies at the national level in the Asia-Pacific region.		
--	--	--

4. Assessment

Assessment Tasks	Weighting (%)	CILOs
(a) Seminar Participation	20%	<i>CILO₁₋₄</i>
(b) Group Project Students are required to work in small groups on a very specific health policy issue in Hong Kong or Mainland China, with first-hand data collected from a survey and submit a group report of around 3,000 words.	30%	<i>CILO_{3,4}</i>
(c) Final Exam	50%	<i>CILO₁₋₄</i>

5. Required Text(s)

Nil
