Part II

The University’s Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Undergraduate, Taught Postgraduate and Research Postgraduate students consist of the following three domains (i.e. in short “PEER & I”):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:
1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
4a. Oral Communication Skills
4b. Written Communication Skills
5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives
1. Course Synopsis
The Comparative Field Visit is a required component of the program providing students a first opportunity to put into practice the research skills they have learned in the Foundation Stage to engage in a small-scale group project. Held during the summer semester, this course aims at enhancing students’ awareness of the importance of policy and governance in global and regional affairs. Through collaboration with other university partners throughout Asia, students are expected to actively engage in the interactive learning environment where international and local students combine knowledge acquired from lectures and seminars with investigation of problems and prospects of Greater China in the Asian context. Students will participate in field trips and professional visits to government offices, international non-profit organizations, political parties, think tanks, social services and environmental protection organizations. Renowned businessmen, community leaders, prominent scholars will also be invited as guest speakers for lectures and professional visits.

2. Course Intended Learning Outcomes (CILOs)
Upon completion of this course, students will be able to:

- CILO₁ understand the major issues related to social, economic, political, cultural and environmental developments in selected Chinese societies in the context of emergence of Greater China.
- CILO₂ examine critically major challenges that these societies are confronting during the process of rapid socio-economic and political transformation.
- CILO₃ appreciate the complexity of social, economic, political and environmental development issues in selected Chinese societies.
- CILO₄ demonstrate an awareness of what major policy responses/governance strategies that the selected Chinese societies have adopted in coping with the challenges identified in the course.
