1. **Course Synopsis**
This course explores knowledge and skills necessary in engaging stakeholders and building coalition in public advocacy. Using real life cases, we introduce students to: (1) The Policy Paradox, which provides a framework for understanding political decision making and the struggles of different stakeholders over values and ideas; (2) Advocacy tools, processes, and models which enable students to understand advocacy formulation, implementation and evaluation; (3) Community engagement and empowerment, in which the emphasis is put on social policies and how to engage the community and the vulnerable population to build advocacy practices in a systematic and purposeful way; and (4) Social Media and Advocacy, which discusses how to engage social media and evaluates the media's role in driving social changes. Ultimately, we train students to be creative and logical thinkers in strategizing advocacy and to become competent communicators in writing and conversing advocacy strategies.
