Project Assistant (Ref: 2100646)
Department of Mathematics and Information Technology

The appointee will be responsible for supporting the project entitled "Infuse STEM/STEAM elements into Mathematics and Information Technology Courses". He/she will assist in developing teaching and learning materials in STEM and Physical Computing with microcontrollers, sensors, actuators, communication devices, IoT devices and/or Mechatronics, and performing any other duties as assigned by the project leader. The appointment will be for a period of 18 months with the possibility of renewal subject to mutual agreement.

Applicants should have a Bachelor's Degree in Computer Science, Computer Engineering, Electronic Engineering, Educational Technologies or other related areas. They should have good knowledge of micro-controlling, physical computing, software and hardware integration in STEM. Excellent ability to communicate in both English and Chinese is required. The knowledge in education-related areas will be an advantage.

Salary will be commensurate with qualifications and experience. Fringe benefits include leave and outpatient medical benefits.

The University only accepts and considers applications submitted online for this post. Applicants should complete the online application form and upload a full CV on or before **17 December 2021**. Applications which are incomplete or without the required documents may not be considered. Personal data provided by applicants will be used for recruitment and other employment-related purposes. For details of the Personal Information Collection Statement, please refer to http://www.eduhk.hk/jobsopp/index.php?glang=en.

All applications will be treated in strict confidence. Only those who are shortlisted will be contacted. The University reserves the right not to fill the position(s) advertised.
