

Research Assistant I (Ref: 2600040)
Global Institute for Emerging Technologies - Future Team

[Appointment Period: 12 months]

The appointee will be responsible for supporting the Global Institute for Emerging Technologies - Future Team [GIET(FT)] and its research projects, under the Academy for Applied Policy Studies and Education Futures (AAPSEF).

He/she will support the development and providing research support and support for launching new initiatives that focus on emerging technology's integration into and impact on education. Duties include conducting research and writing on innovative design and development projects related to AI+STEAM disciplines and digital humans.

The appointee might also conduct practical research as related to the new initiatives offered by GIET, by developing and validating instruments, collecting data and writing reports. He/she will review the research and development resources by GIET and performing other duties assigned by the co-directors.

Applicants should have a Bachelor's Degree, preferably a Master's Degree (or close to graduation) or a Doctoral Degree from a reputable university.

In addition to academic credentials, applicants should be proficient in using emerging technologies such as AI and Design tools; be highly proficient in both English and Chinese (either Cantonese or Putonghua). They should have the capability of producing professional multimedia materials and communicating effectively in various settings (primarily in English). Programming skills would be a plus but not required.

Applicants should be self-motivated; able to work under pressure with multiple deadlines and after normal office hours; be able to work independently and able to work as a team member. Applicants with academic background and research experience in related fields (**Design and technology, Computer science, AI agents, STEAM education, curriculum design, and human-Robotics interaction**) would be preferable.

Salary will be commensurate with qualifications and experience.

Initial appointment will be made on a fixed-term contract. Fringe benefits include contract-end gratuity, leave, medical and dental benefits.

The University only accepts and considers applications submitted online for this post. Applicants should complete the [online application form](#) and upload a full CV on or before **28 January 2026**. Applications which are incomplete or without the required documents may not be considered. Personal data provided by applicants will be used for recruitment and other employment-related purposes. For details of the Personal Information Collection Statement, please refer to <http://www.eduhk.hk/jobsopp/index.php?glang=en>.

All applications will be treated in strict confidence. Only those who are shortlisted will be contacted. The University reserves the right not to fill the position(s) advertised.

Further information about the University is available at <http://www.eduhk.hk>.

EdUHK is an Equal Opportunities Employer.
