

Educational Technologist (Ref: 2600545)

Faculty of Education and Human Development

The appointee will work closely with the e-learning team to support the implementation of the University's strategic digital learning initiatives and actively contribute to AI-integrated pedagogical innovation. He/She will assist academic and teaching staff in the Faculty to integrate AI and digital technologies into learning and teaching to enhance student learning experience and effectiveness, while developing digital student learning resources and professional development materials to support University-wide AI initiatives. The appointee's primary responsibilities include collaborating with course instructors to design and enhance interactive in-class learning activities (such as gamified learning, live polling, and digital collaborative workspaces), providing technological advice for resolving pedagogical issues, testing cutting-edge tools (such as generative AI applications, web/mobile applications, VR, AR, or MR), and promoting best practices in digital pedagogy for classroom integration. For specific Faculty projects, he/she will also provide direct guidance to students on selecting and utilising software related to emerging technologies (e.g., VR, AR, MR, and AI tools), support the development of high-quality digital learning resources, and assist in translating complex teaching ideas into engaging, technology-supported learning experiences. Additionally, he/she will support the Faculty in maintaining the Innovation Hub on the Faculty website for sharing resources and good practices, and provide comprehensive technical and administrative support to ongoing Faculty projects.

Applicants should have a Bachelor's degree, preferably with at least 3 years of hands-on working experience in educational technology, instructional design, or e-learning development, ideally within a tertiary institution. A background in education, psychology, or educational technology, as well as practical experience in high-quality video production for project dissemination and promotional purposes, will be a distinct advantage. They should have experience with LMS platforms and e-learning authoring tools; demonstrate practical experience in using AI tools for content development alongside strong technical problem-solving abilities; and have a clear understanding of how digital and AI technologies can be applied in learning and teaching contexts. Candidates should have strong skills in multimedia software (e.g., Adobe Creative Cloud), be highly innovative with a good artistic sense, and demonstrate exceptional interpersonal, communication, project management, and organisational skills to successfully navigate consultations with both academic staff and students. A high level of proficiency in both English and Chinese is essential, and immediate availability is preferred. The initial appointment will be made on a fixed-term contract basis for a period of two years, with the possibility of renewal subject to performance and mutual agreement.

Salary will be commensurate with qualifications and experience.

Initial appointment will be made on a fixed-term contract. Fringe benefits include the University's Voluntary Contributions to MPF Scheme or a contract-end lump sum payment (totaling up to 10% of the basic salary), leave, medical and dental benefits. The appointee will hold a substantive rank of Project Officer in the University.

The University only accepts and considers applications submitted online for this post. Applicants should complete the [online application form](#) and upload a full CV on or before **26 July 2026**. Applications which are incomplete or without the required documents may not be considered. Personal data provided by applicants will be used for recruitment and other employment-related purposes. For details of the Personal Information Collection Statement, please refer to <http://www.eduhk.hk/jobsopp/index.php?glang=en>.

All applications will be treated in strict confidence. Only those who are shortlisted will be contacted. The University reserves the right not to fill the position(s) advertised. Since the incumbent's work would involve contacts with persons aged under 18 and/or mentally incapacitated persons, prospective employee(s) will be required to undergo Sexual Conviction Record Check operated by the Hong Kong Police Force.

Further information about the University is available at <http://www.eduhk.hk>.
