

Multimedia Developer (Ref: 2600801)

Faculty of Education and Human Development

The appointee will work closely with the e-learning team to support the implementation of the University's strategic digital learning initiatives and actively contribute to AI-integrated pedagogical innovation. The appointee will work on designing and developing digital learning resources that incorporate creative and innovative approaches to learning and teaching, with a particular emphasis on the effective integration of emerging technologies in education (e.g. AI, web, mobile applications, VR, AR, or MR). He/She will primarily support the development of digital learning resources and other multimedia productions, including on-site photo and video shooting, image editing, post-production, and animation. Additionally, he/she will provide support for specific Faculty projects, including assisting faculty members to implement AI and digital technologies into learning and teaching, and supporting students in the selection and use of digital technologies for project-based learning. He/She will also support the Faculty in maintaining the Innovation Hub on the Faculty website for sharing learning and teaching resources and good practices, and provide technical and administrative support to Faculty projects.

Applicants should have a Bachelor's degree, preferably with several years of hands-on working experience in multimedia production, web design, e-learning, or related areas, preferably in tertiary institutions. A background in education, as well as strong knowledge in cutting-edge technologies will be advantageous. They should possess a high level of proficiency in English and Chinese; demonstrate practical experience in using AI tools for content creation and have a clear understanding of how digital and AI technologies can be applied in teaching and learning contexts; strong skills in multimedia production (e.g. Adobe Creative Cloud); have experience with LMS platforms and e-learning authoring tools and technologies; be innovative and possess a good artistic sense; and demonstrate strong problem-solving, communication, project management, and organisational skills. Immediate availability is preferred. Applicants with less experience will be considered for the post of Project Assistant. The initial appointment will be for a period of two years, with the possibility of renewal subject to mutual agreement.

Salary will be commensurate with qualifications and experience.

Initial appointment will be made on a fixed-term contract. Fringe benefits include the University's Voluntary Contributions to MPF Scheme or a contract-end lump sum payment (totaling up to 10% of the basic salary), leave, medical and dental benefits. The appointee will hold a substantive rank of Project Officer / Project Assistant in the University.

The University only accepts and considers applications submitted online for this post. Applicants should complete the [online application form](http://www.eduhk.hk/jobsoff/index.php?glang=en) and upload a full CV on or before **23 September 2026**. Applications which are incomplete or without the required documents may not be considered. Personal data provided by applicants will be used for recruitment and other employment-related purposes. For details of the Personal Information Collection Statement, please refer to <http://www.eduhk.hk/jobsoff/index.php?glang=en>.

All applications will be treated in strict confidence. Only those who are shortlisted will be contacted. The University reserves the right not to fill the position(s) advertised. Since the incumbent's work would involve contacts with persons aged under 18 and/or mentally incapacitated persons, prospective employee(s) will be required to undergo Sexual Conviction Record Check operated by the Hong Kong Police Force.

Further information about the University is available at <http://www.eduhk.hk>.
