香港教育大學
The Education University of Hong Kong

Founded in 1994 and awarded the University title in 2016, The Education University of Hong Kong (EdUHK) is a publicly funded university, dedicated to the advancement of teacher education and related disciplines through a diverse offering of academic, professional and research programmes. Celebrating its 30th anniversary in 2024, the University aspires to become a leading university in the Asia Pacific region and beyond, with a focus on educational and multidisciplinary research, development and innovation. We are committed to nurturing outstanding and caring educators and professionals as well as enhancing the impact of scholarship.

The University has an academic/teaching staff strength of about 460 and total student headcount of about 11,000. It has a Graduate School and three Faculties, namely, Faculty of Education and Human Development, Faculty of Humanities, and Faculty of Liberal Arts and Social Sciences, comprising 15 academic departments, as well as two Academies, Academy for Educational Development and Innovation and Academy for Applied Policy Studies and Education Futures, a number of University-level research centres and Faculty-level research and professional development centres. For more information about the University, please visit http://www.eduhk.hk.

We are looking for suitable candidate(s) to fill the following position(s). If you are excited by the prospect of contributing your expertise to the development of a leading university at the heart of Asia Pacific region and beyond, we would like to hear from you.

Senior Information Technology Manager (Smart Campus) (Ref: 2600967)
Office of the Chief Information Officer

The Office of the Chief Information Officer (https://www.eduhk.hk/ocio) provides essential IT services supporting the University's teaching, learning, research and administration activities with a strong emphasis on innovation, staff development and professional excellence. We are seeking an experienced and forward-thinking **Senior IT Manager** to join our team, drive digital transformation and enhance campus experience through innovative IT solutions.

Key Responsibilities

The appointees will be responsible for:

- designing, developing, and implementing smart campus and AI initiatives to support the strategic innovations across the University;
- leading AI-driven projects and applications for enhancing staff and student experiences;
- developing and managing cutting-edge technologies such as AI, machine learning, IoT and data analytics to transform the campus environment;
- formulating and enforcing system standards, procedures, and best practices;
- serving on committees/working groups and representing the University in partnerships and collaborations with external stakeholders;
- negotiating with vendors for technology acquisition and service agreements;
- ensure compliance with data governance, cybersecurity, and privacy requirements (e.g. PDPO); and
- lead and mentor a team of IT professionals and project staff.

Qualifications

The ideal candidate should have:

- a recognised Bachelor's degree or above in Information Technology or related disciplines;
- at least 12 years of relevant post-qualification work experience gained on smart campus or digital transformation initiatives;
- proven successful project management experience in smart campus or AI-related projects, preferably gained in local tertiary institutions;
- expertise in AI and machine learning, IoT architecture, and data analytics platforms;
- experience with development frameworks such as Python, TensorFlow, React, or modern tools like cloud-native platforms and low-code/no-code platforms would be advantageous;
- experience in using LLMs, AI tools and platforms on various end-user use cases so that recommendations can be made to end users;
- hands-on experience with containerisation technologies (e.g., Docker, Kubernetes) and microservices architecture is highly preferred;
- solid understanding of DevOps practices and tools, including CI/CD pipelines, version control, automated testing, and deployment automation;
- proficiency in both English and Chinese with strong communication and presentation skills;
- ability to handle multiple tasks simultaneously, and work proactively and independently;

- solid experience in project management and vendor management (e.g. PRINCE2 / PMP preferred);
- strong leadership, interpersonal and stakeholder management skills; and
- prior experience in higher education or public sector will be an advantage.

Applicants who have responded to the previous advertisement (Ref: 2600579) for the same position are under consideration and need not re-apply.

Salary will be commensurate with qualifications and experience.

Initial appointment will be made on a fixed-term contract. Fringe benefits include the University's Voluntary Contributions to MPF Scheme or a contract-end lump sum payment (totaling up to 15% of the basic salary), leave, medical and dental benefits, and, where applicable, housing benefits. The appointee will hold a substantive rank of Information Technology Manager in the University.

The University only accepts and considers applications submitted online for this post. Applicants should complete the online application form and upload a full CV on or before **16 November 2026**. Applications which are incomplete or without the required documents may not be considered. Personal data provided by applicants will be used for recruitment and other employment-related purposes. For details of the Personal Information Collection Statement, please refer to http://www.eduhk.hk/jobsopp/index.php?glang=en.

All applications will be treated in strict confidence. Only those who are shortlisted will be contacted. The University reserves the right not to fill the position(s) advertised.

EdUHK is an Equal Opportunities Employer.
