Part II

The University's Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Sub-degree, Undergraduate, Taught Postgraduate, Professional Doctorate and Research Postgraduate students consist of the following three domains (i.e. in short "PEER & I"):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:

1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
- 4a. Oral Communication Skills
- 4b. Written Communication Skills
5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives

1. **Course Synopsis**

This course is a continuation of the Honours Project I: Research Methods and Proposal, and serves as a culminating academic and intellectual experience for students. It provides

opportunities for students to conduct research independently under the guidance of their supervisors. Students are expected to finalize their initial project proposal first. By the end of the course, students are expected to present their research findings and submit a research report.

2. Course Intended Learning Outcomes (CILOs)

Upon completion of this course, students will be able to:

- CILO₁ demonstrate good understanding of the knowledge and main ideas of their Major/ Programme/ Education Studies (closure)
- CILO₂ demonstrate their research, analytical and higher order thinking skills (e.g., problem solving, creative thinking, critical thinking, ethical decision making, etc.) in the processes of research and/or inquiry
- CILO₃ synthesize and/or make connections of the content, knowledge and skills from prior courses in a broader context as a “meaningful whole” (integration)
- CILO₄ apply and generate new understandings of their future studies (reflection and transition)
- CILO₅ consolidate and generate insights on personal identity in relation to the future studies (reflection and transition)

3. Content, CILOs and Teaching & Learning Activities

Course Content	CILOs	Suggested Teaching & Learning Activities
Revisiting and reviewing the written project proposal in Honours Project I: Research Methods and Proposal - Revisiting the characteristics of the Major/Programme/ Education Studies - Ways and criteria of selecting an appropriate topic for the study - Revisiting research methodology and ways of selecting methods of investigation - Revisiting importance of the literature review process and ways to assess research reports and papers as well as knowledge and practice in the chosen fields of study - Ethical considerations in conducting an investigation - Submitting application for ethics review	CILO _{1,2,3}	Group or individual consultation with advisor
Systematically conducting the proposed study - Data collection - Data analysis	CILO _{1,2,3,4}	Group or individual consultation with advisor
Presenting findings and writing report - Systematic presentation of the findings - Analysis and discussion of the findings - Writing research report	CILO ₁₋₅	- Individual presentation of research results in a simulated conference - Group or individual consultation with advisor as needed

4. Assessment

Assessment Tasks	Weighting (%)	CILO
Refinement of the proposal	10%	CILO _{1,2,3}
Presentation of the research report	20%	CILO ₁₋₅

A 10,000 to 13,000 Chinese characters written research report (CMI)/ 6,000 to 8,000-word (EMI) written research report. The research report should include a statement of the problem/topic, a critical review of literature or an investigation into the topic, a description of research methods, and an analysis and discussion of the findings.	70%	<i>CILO₁₋₅</i>
--	-----	---------------------------

Please note: Students in CMI class should complete the assessment tasks in Chinese, and students in EMI class should complete the assessment tasks in English.

5. Use of Generative AI in Course Assessments

Please select one option only that applies to this course:

☐ **Not Permitted:** In this course, the use of generative AI tools is not allowed for any assessment tasks.

☒ **Permitted:** In this course, generative AI tools may be used in some or all assessment tasks. Instructors will provide specific instructions, including any restrictions or additional requirements (e.g., proper acknowledgment, reflective reports), during the first lesson and in relevant assessment briefs.
