"I love education. I have always wanted to be a teacher. When I was looking for programmes to study, I found this one that would allow me to study both language studies and education in English at the same time. I thought that it was a wonderful chance for me, because it fulfilled what I needed and gave me the opportunity to have a great career. I have learned so much from many different, engaging courses and worked closely with local schools during the practical component to improve my teaching style and methods. It has been very fulfilling!"

"Studying here in EdUHK has equipped me with both knowledge of the English language and the skills to be a teacher. The double degree programme has provided me with the chance to obtain two degrees over five years of study. It is a wide scope of study as an edge. The professors and tutors here are always helpful and easy to communicate with. I now have a deeper understanding of both domains, from grammar to pronunciation, from psychology to teaching methodology. There are lots of extracurricular activities to join here in EdUHK. They have provided me with opportunities to learn different generic skills outside the classroom. I have had many unforgettable experiences joining activities, and they have made me a more independent and well-rounded person."
