Part II

The University's Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Sub-degree, Undergraduate, Taught Postgraduate, Professional Doctorate and Research Postgraduate students consist of the following three domains (i.e. in short "PEER & I"):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:

1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
- 4a. Oral Communication Skills
- 4b. Written Communication Skills
5. Social Interaction Skills

6. Ethical Decision Making
7. Global Perspectives

1. Course Synopsis

This course explores the principles, techniques, and conceptual frameworks of sculpture and installation art. Students will investigate materiality, spatial concepts, and temporal dynamics in sculptural works while engaging with both traditional and digital fabrication techniques. Through hands-on projects and critical discussions, this course prepares students for diverse applications in sculpture, installation, and digital 3D art, fostering innovation in contemporary artistic practice.

2. Course Intended Learning Outcomes (CILOs)

Upon completion of this course, students will be able to:

- CILO₁ demonstrate an understanding of historical and contemporary sculpture and installation art in local and global context;
- CILO₂ demonstrate technical competence in traditional and digital sculptural methods and apply spatial, temporal, and interactive concepts in installation artworks;
- CILO₃ demonstrate social and cultural awareness, with feasibility considerations for creating interactive installations;
- CILO₄ Critically analyze and discuss sculpture and installation art;
- CILO₅ apply appropriate media and visual strategies to express their views; and
- CILO₆ demonstrate ability to apply and transfer learned knowledge and skills to teaching in school/community.

3. Content, CILOs and Teaching & Learning Activities
