

GCCCE 2021

Future Collaboration Panel

Tuesday, September 14, 11:00-12:30

Chaired by: Maiga CHANG, Athabasca University, Canada

1) What is it about?

Future Collaboration Panel is mainly for GCCCE 2021 participants and offers a platform for participants who have intention, ideas, and plan to collaborate with other participants after they see the correspondent published works, or attend the correspondent presentations, or be inspired by the talks, conversations and discussions.

Panelists will be selected and invited through self-application made via email to Dr. Maiga CHANG at maiga.chang@gmail.com by 6 PM on Monday, September 13. Please inform Dr. CHANG if you are likely to submit your application after 6 PM.

Although perhaps not all applications can be accommodated due to the time limit the panel has, all applications will be further reviewed and invited to submit an article to the "**Collaboration Opportunity**" section in the Bulletin of the Technical Committee on Learning Technology (<https://tc.computer.org/tclt/author-guidelines/>). The Bulletin is published by IEEE TCLT and is included in Web of Science's Emerging Sources Citation Index (ESCI, <https://mjl.clarivate.com/search-results?issn=2306-0212>). Also, the Bulletin is free for both of authors and readers.

Last but not the least, the collaboration applications are also strongly encouraged and recommended to submit and publish their progress, stage outcome, and results in the next GCCCE conference.

2) How should applicants apply?

- a. Applicants can contact the Future Collaboration Panel Chair via email: maiga.chang@gmail.com. The powerpoint document application template can be downloaded at both of GCCCE website and <http://maiga.athabascau.ca/share/GCCCE2021-FCP.pptx>.
- b. Please ensure that the application reaches the collaboration panel chair by 6 PM on Monday, September 13, 2021.
- c. Participants/Researchers/Speakers who the participant wishes to collaborate with will be contacted by email before 10 AM on Tuesday, September 14.

3) What should applicants provide in the power point template?

- a. Applicant name, institution.
- b. Their area of research and presentation topic at the conference if relevant to the proposed area of collaboration.
- c. Talks attended at the conference (if related to the collaborators work).

- d. Proposed idea.
 - e. Participants/Researchers/Speakers they wish to collaborate with.
 - f. How will the proposed idea link with the Participants/Researchers/Speakers they wish to collaborate with?
 - g. What are the intended benefits to the applicant's work?
 - h. What are the potential benefits for the collaborator?
 - i. How will the proposed work benefit both parties?
- 4) Presentation details:
- a. Each applicant will have 10 minutes to present followed by questions.
 - b. The applicant should be clear about the work they are interested in.
 - c. Should the applicant's presentation over run or further discussions are need with the potential collaborator, this will be followed up later.
 - d. The order of presentations will be decided by the chair.
