Part II

The University has Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Undergraduate, Taught Postgraduate and Research Postgraduate students consist of the following three domains (i.e. in short “PEER & I”):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:

1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
- 4a. Oral Communication Skills
- 4b. Written Communication Skills

5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives

1. Course Synopsis

This course is designed to introduce students to the principles and theories underlying health management and policy. On completion of the course, students will be able to analyze, criticize, and apply these principles in the health care setting. Moreover, students will develop competencies in making informed decisions on management and policy issues in a setting that provide health-related services or involved in health-related activities.

2. Course Intended Learning Outcomes (CILOs)

Upon completion of this course, students will be able to:

- CILO₁ examine the concept of management and policy as well as the historical perspectives of management and policy;
- CILO₂ critically explain the key principles and theories in health management and policy;
- CILO₃ critically evaluate the relevance and the application of management and policy theories in the health care setting;
- CILO₄ critically evaluate a major management and policy issue in a health-related setting and recommend strategies/ solutions to resolve these issues.

3. Content, CILOs and Teaching & Learning Activities
