First Announcement
**Third Asia-Pacific EPR/ESR
Symposium**
APES01

October 29-November 1, 2001

Kobe University
Kobe, Japan

Organized: by Asia Pacific EPR/ESR Society

Invitation

The Local Organizing Committee (LOC) on behalf of the International Organizing Committee (IOC) and the APES Council extends a cordial invitation to participate in the third Asia-Pacific EPR/ESR Symposium (APES'01), which will take place at Kobe University (Kobe Japan) from October 29 (Monday) to November 1 (Thursday), 2001. The Symposium, although aimed primarily at the Asia-Pacific countries, will be open to participants from all over the world.

Scope of the Symposium

The aim of the APES'01 is to cover all subareas of EPR/ESR. Contributions dealing with any aspects of recent developments and applications in the "Theory", "Applications", "Methodology", "Instrumentation" and "Experimental Techniques" are invited. The focus will be on recent applications of EPR/ESR spectroscopy, including the conventional EPR/ESR, pulsed EPR, high frequency and high field EPR, ENDOR, time resolved EPR, FMR, MRI, CIDEP and ODMR. Four parallel topical sessions are planned.

- (1) Biology, Life and Medical Sciences.
- (2) Chemistry, Earth and Environmental Sciences.
- (3) Physics and Material Sciences,
- (4) New Development and Cross-disciplinary areas.

Language

The official language of the Symposium will be English. No facilities for translation will be available.

Invited Lectures

Nominations are invited for up to 10 invited speakers, who will deliver the plenary lectures on the current most important topics. Self-nominations are also welcome. Please provide us with a short abstract of the lecture and a brief CV of the potential speaker. Nominations should be made to the Chairperson of the LOC before the end of July 2000.

Satellite Meetings and Post Symposium Tours

Satellite meeting(s) may be arranged in the period October 26-27, or November 2-3 at Sengari Seminar House of Kwansai Gakuin University depending on the participants' proposals and demand. Post Symposium tours to Hiroshima and Miyazima, Kyoto, Nara etc. may be arranged.

Place & Accommodations

Kobe University is located in Rokko Mountain area of Kobe city and close to the seashore of Osaka bay. The Symposium will be held at the International Conference Center now under construction, which will be completed by the end of 2000.

Limousine bus service, JR and private rail lines are available from Osaka Kwansai airport to Kobe. It takes about 90 min to reach the conference site.

Accommodation will be arranged at several hotels close to the Kobe University campus.

Address for Correspondence

All correspondence should be addressed to:
