Objectives

It is a grand interschool event for informal learning of STEM as initiated by HKIEd/EdUHK in response to the recommendations and strategies for promoting of STEM education among schools in Hong Kong as proposed by the EDB/Curriculum Development Council in 2015.

- To provide senior secondary school students with informal learning opportunities to deepen their understanding of STEM, and to enhance their interest in pursuing further study in STEM subjects and career; and
- To create an atmosphere conducive to the teaching and learning of STEM in secondary schools, and to heighten teachers' and students' awareness of the importance of STEM education.

Features:

The STEM Olympiad consists of two parts:

- Part I: “STEM-related Knowledge Challenge (知識大檢閱)”
 - Students will participate on both individual and team basis to demonstrate their knowledge in relation to STEM subjects.
- Part II: “Innovations in Practice (創新實踐大挑戰)”
 - Students will work in teams to solve a set of problems and create an innovative design, artefact or solution that requires integration and application of STEM related knowledge and skills.
- ***NO prior training or preparation is required. Students will come for an enjoyable event to***
 - ***a) Acquire new knowledge, skills and insights into STEM education through participating in the competition;***
 - ***b) Reflect on their future orientation with respect o STEM education and career; and***
 - ***c) Be rewarded with medals, trophies, prizes (coupons and/or mobile devices) and certificates of High Distinction, Distinction, or Credit***
