(All information was checked via the Hong Kong eTransport of the Transport Department as at February 2019.)

**Remarks:**

1. Hall point in Home Location is referred to the travelling time as given by the Hong Kong eTransport of the Transport Department, checked and justified on February 2019.
2. The travelling time determined by the Hong Kong eTransport is not necessarily the actual travelling time that a student spends nor the actual transport modes that he/she takes. However, it provides a common base and a reference point to assign a home location hall point which is considered more standardized.
