

GEC1056 Korean Popular Culture in Hong Kong

Course lecturer: KANG, Jong Hyuk David

**Enhancement of global elements in the course**

“Korean Popular Culture in Hong Kong” is a GE course I taught in the previous semester. After adding a few global elements, students are able to have a better understanding of:

- one's own culture (Hong Kong);
- the roles of culture played in a number of global issues;
- the similarities and diversities among East Asian cultures, as well as the intriguing relationship between East Asian neighbors.
