Research Assistant I/II (Ref: RAI/II/MIT/0820)
Department of Mathematics and Information Technology

The appointee will assist the project leader in a project related to artificial intelligence techniques and algorithms. As a member of a research group, the appointee will be responsible to develop project materials; collect and analyze data; learn and write program languages like Python, R, Java; carry out relevant administrative duties related to this project. The appointment will be for a period of around 5 months with the possibility of renewal subject to mutual agreement.

Applicants for Research Assistant I should have a Bachelor’s Degree preferably in computer science, computer engineering, information system, education technologies or related disciplines. Applicants for Research Assistant II, they should have at least Level 2 or equivalent or above in five subjects including Chinese Language, English Language and Mathematics in HKDSE; or Grade E (Level 2) or above in five subjects including Chinese, English (Syllabus B) and Mathematics in HKCEE or equivalent.

Applicants should have the ability to conduct data collection and analysis independently, an excellent command of academic English, high proficiency in both spoken English and Chinese, great communication skills, basic programming skills and a proven track record in meeting deadlines. Preference will be given to those who are familiar with data analytics, use of artificial intelligence tools and have publications in academic journals.

Salary will be commensurate with qualifications and experience. Fringe benefits include leave and outpatient medical benefits.
