

EdUHK VMWare AirWatch App User Guide for Andriod

You can access your AirWatch Files from an Andriod device.

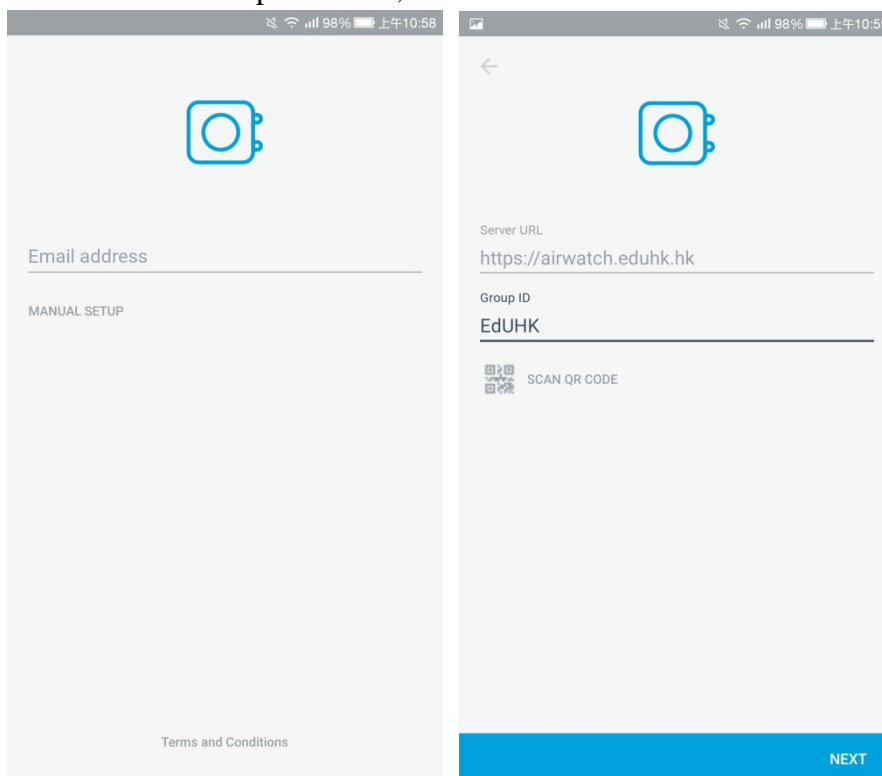

1. Please download “VMWare Content Locker” App from Google PlayStore (<https://play.google.com/store/apps/details?id=com.airwatch.contentlocker&hl=en>).

Note: For Andriod 6.0 or higher.

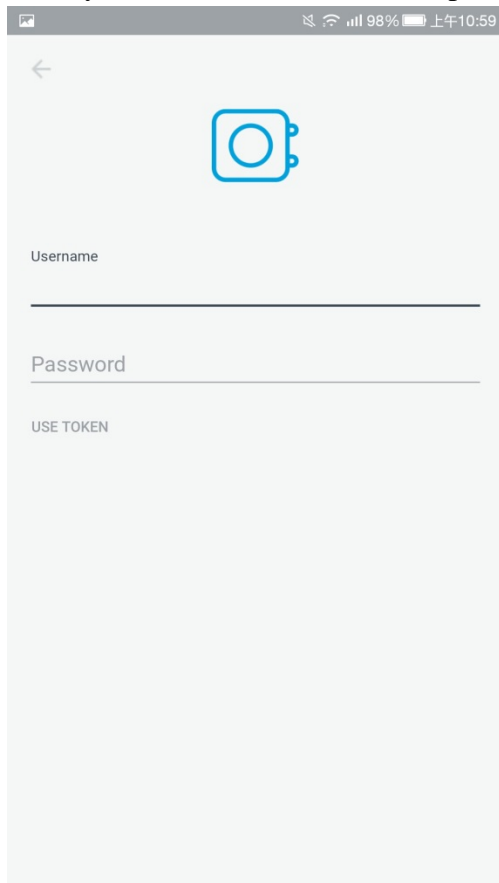

2. Tap on the icon to open the app.

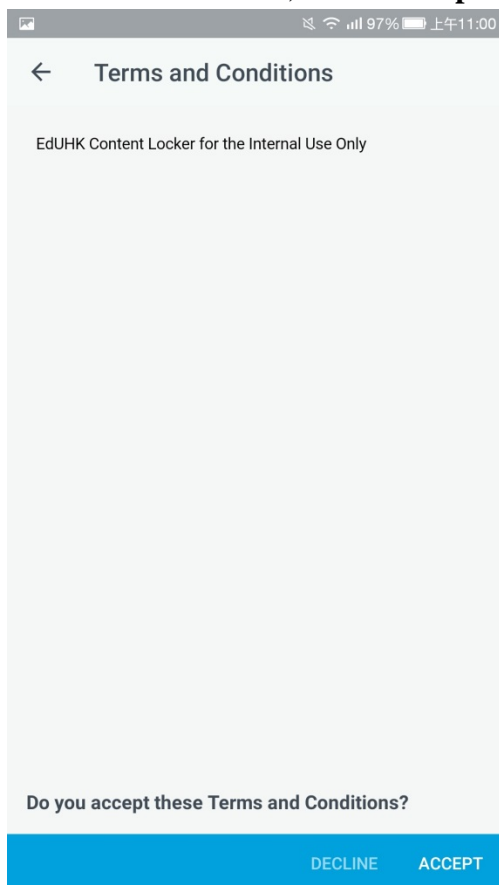

3. For the first-time user, enter “**MANUAL SETUP**”, type “**airwatch.eduhk.hk**” as Server URL and “**EdUHK**” as Group ID. Then, click **NEXT**.

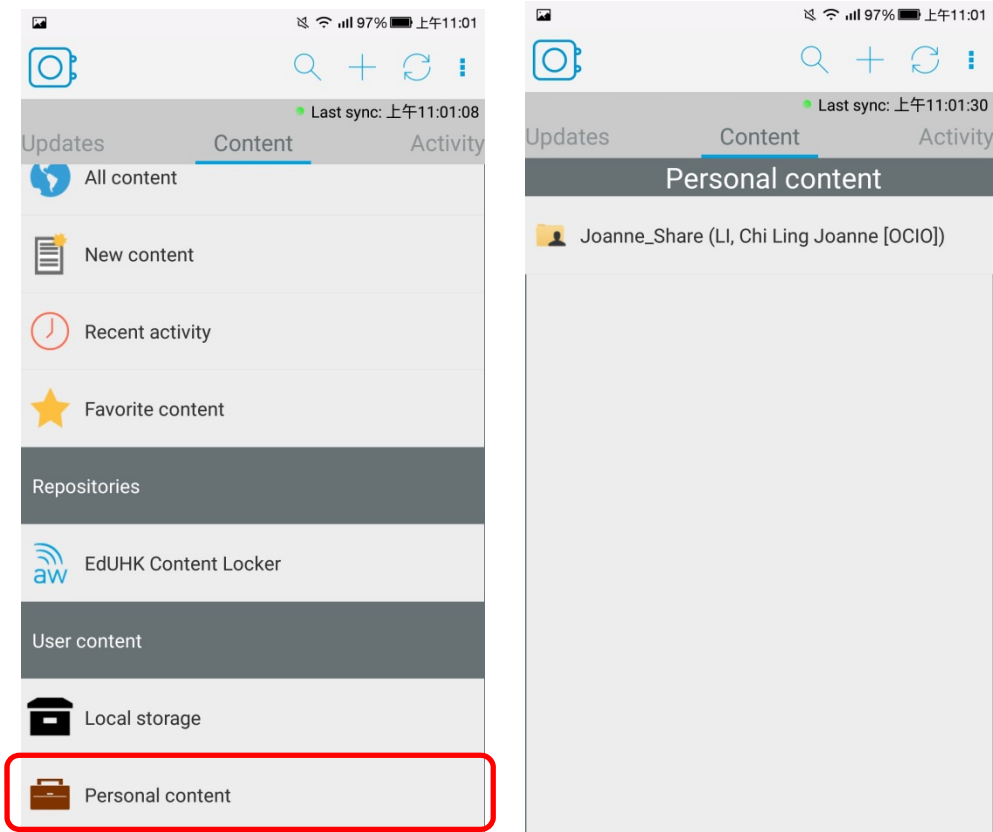

4. Enter your EdUHK username and password and click **“LOGIN”**.

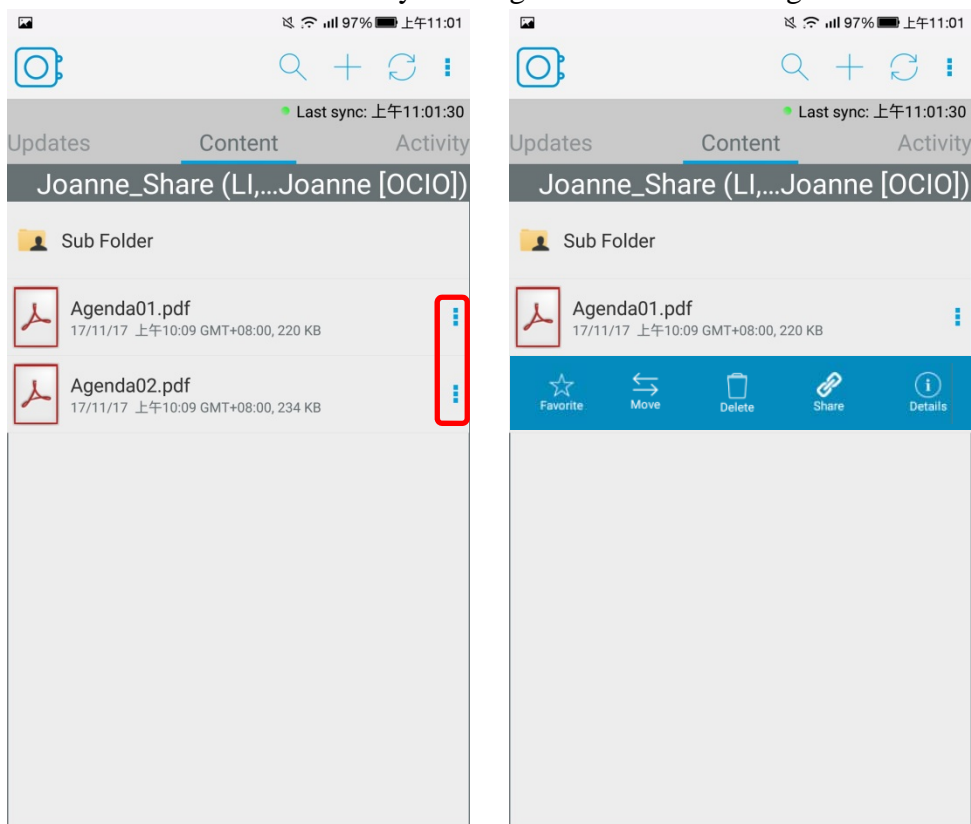

5. For the first-time user, click **“Accept”** at the Terms and Conditions.

6. To navigate your online files or folders, select **“Personal content”**.

7. More functions are available by clicking the  icon on the right hand side of the file or folder.

8. To log out the app (terminate connection with server), click the  icon at the right top corner. Then select **“Lock”**.
