

EdUHK VMWare AirWatch App User Guide for iOS

You can access your AirWatch Files from an iOS device.

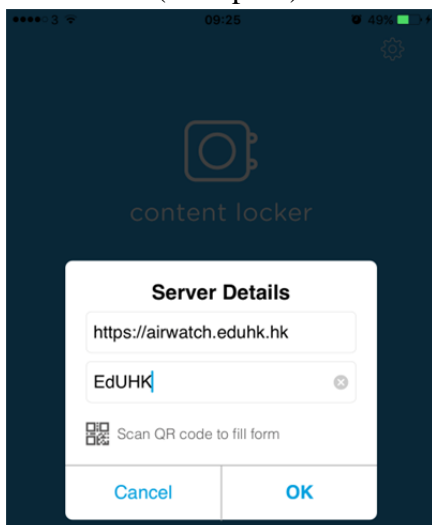

1. Please download “VMWare Content Locker” App from iTunes App Store (<https://itunes.apple.com/us/app/vmware-content-locker/id525890839?mt=8>).

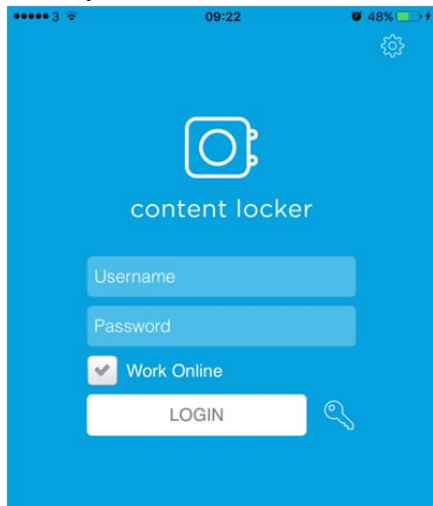

2. Tap on the icon to open the app.

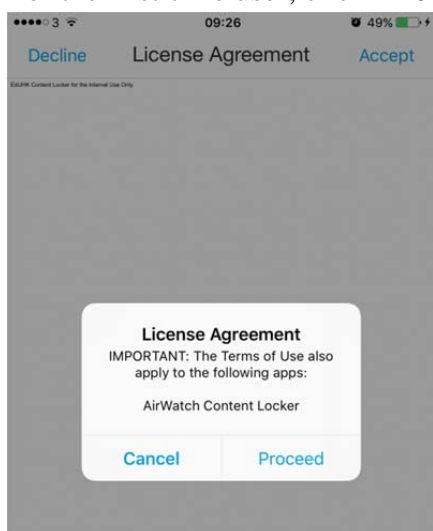

3. For the first-time user, enter Server Details “**airwatch.eduhk.hk**” (<https://example.com>) and “**EdUHK**” (Group ID) in the box provided and click **OK**.

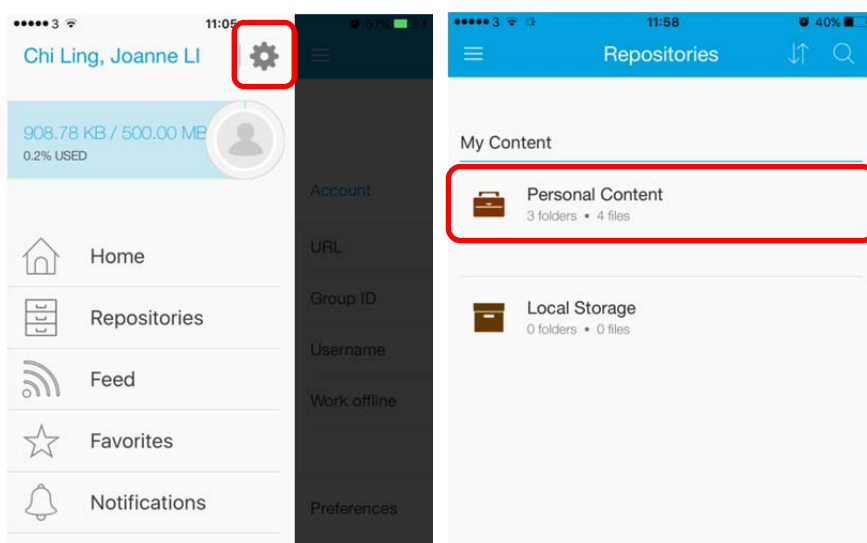

4. Enter your EdUHK username and password and click **“LOGIN”**.

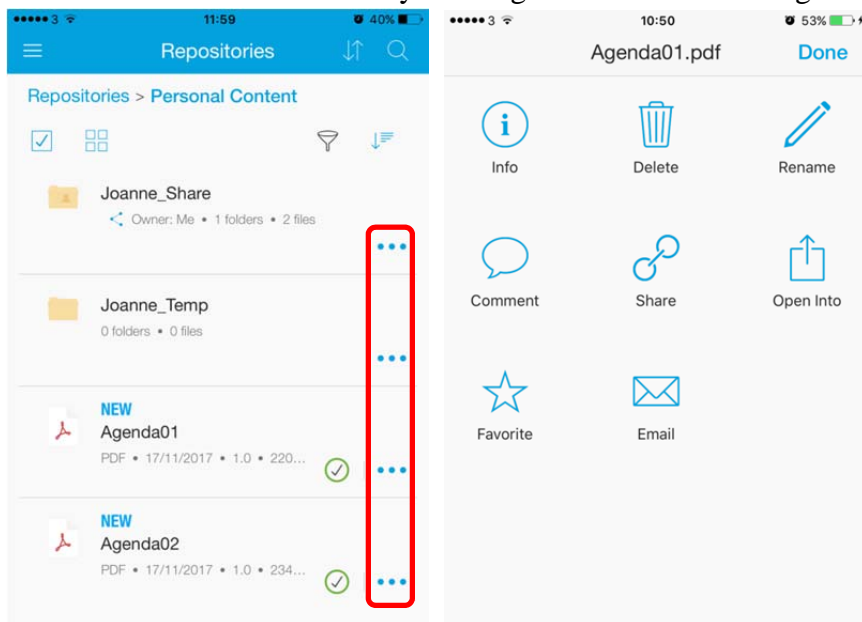

5. For the first-time user, click **“Accept”** and **“Proceed”** at the License Agreement.

6. To navigate your online files or folders, select **“Repositories”** at the main menu and open the **“Personal Content”**.

7. More functions are available by clicking the **⋮** icon on the right hand side of the file or folder.

8. To log out the app (terminate connection with server), open the main menu and click the **⚙️** icon. Then select **“Log Out”**.
