

Quick Reference Guide for Polycom HDX8000

Turn On the System

- Power on Polycom.
- Power on Television, select the input signal source. The Polycom startup screen should appear in 3-4 minutes. Once the "Dial Up" screen shows, the system is ready for receiving call or placing a call.

To Receive A Call From Polycom Conference Equipment

- Wait for the "Dial In" tone and the "Dialer" IP address appears.
- Check the "Dialer" IP address and accept the call.

To Place A Call To a Conference Equipment

- Display the onscreen keyboard to enter the text.
- Enter the receiver's IP address on the screen using the remote control with "dot" in the format: XXX.XXX.XXX.XXX
- Place a call with the "Place or answer a call" button.

To Adjust the Volume

- Press "+" or "-"

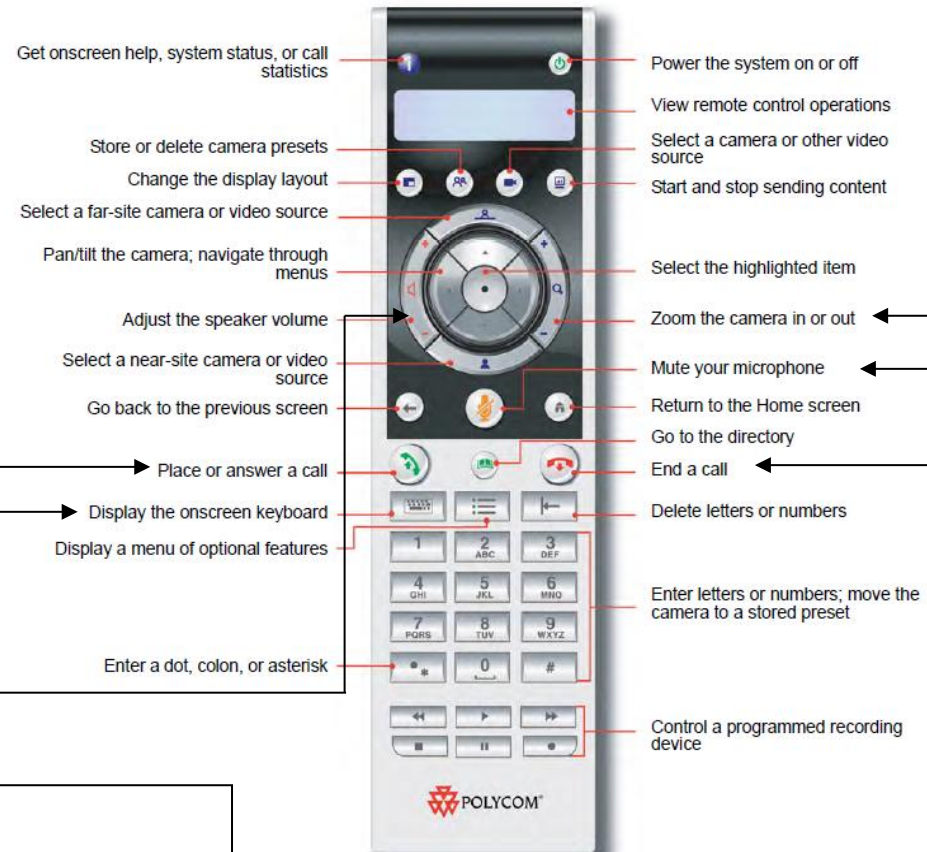

To Mute the Microphone

- Press mute button.

To Zoom in/out

- Press "+" or "-"

Please turn Off the Polycom and Television after use

To End a Call

- Press "End a call" button.
- Confirm after prompted.
