The University
ABOUT THE UNIVERSITY

The Education University of Hong Kong (EdUHK) is a university in Hong Kong dedicated to teacher education and complementary disciplines. Funded by the University Grants Committee (UGC), the University provides doctoral, master’s and bachelor’s degrees, postgraduate diploma, higher diploma and a range of in-service programmes to around 11,270 students.

RICH EDUCATION HERITAGE

The history of teacher education can be traced back to 1853 when the first formalised programme of in-service teacher training was introduced in St Paul’s College. In 1881, the first Government Normal School was founded by the then Governor, John Pope Hennessy in Wanchai. With increasing interest in and demand for teacher education from the government and the public, the Northcote College of Education (1939), Grantham College of Education (1951), Sir Robert Black College of Education (1960), the Hong Kong Technical Teachers’ College (1974) and the Institute of Language in Education (1982) were founded respectively to provide formal teacher education in Hong Kong.

In April 1994, pursuant to the recommendation of Education Commission Report No.5 (ECR 5), The Hong Kong Institute of Education (HKIEd) was formally established by amalgamating the four Colleges of Education and the Institute of Language in Education. It is mandated to upgrade teacher education and professional development programmes.

TRANSFORMATION JOURNEY

The Institute came under the aegis of the UGC in July 1996. In October 1997, the Institute moved to its new campus in Tai Po. Additional establishments such as the HKIEd HSBC Early Childhood Learning Centre and the HKIEd Jockey Club Primary School were founded on the campus in 2001 and 2002 respectively, to provide support for our student teachers and put innovative research concepts into practices.

In 2004, following a review by the UGC, the Institute was granted self-accrediting status for education programmes. In mid-2007, the Institute promulgated a Development Blueprint for the next decade, outlining our aspiration to become a
University of Education and to extend its scope of educational and research activities, footprint and academic impact within the Asia-Pacific region. In mid-2009, the Institute promulgated the Strategic Plan 2009-12 and Beyond. Embracing the “Education-plus” concept, the Institute embarked on transforming itself into an Education-focused, multidisciplinary and research strong University of Education.

In 2013, the Institute published the Strategic Plan 2013-16, titled Shaping the Future: Excellence in Learning, Teaching and Scholarship. The Strategic Plan provided direction, strategies and milestones that guided the Institute’s development, enabling it to further enhance its academic capacity, improve its research infrastructure, and promote its research culture and impact in the areas of education studies, humanities, social sciences and creative arts and culture.

In September 2015, the UGC submitted its review report to the Education Bureau, recommending that a university title be awarded to the Institute. In January 2016, the Chief Executive in Council approved that a university title be conferred on the Institute. Following the passage of the HKIEd (Amendment) Bill at the Legislative Council in mid-May 2016 and upon the publication of the Government Gazette on the HKIEd (Amendment) Ordinance 2016, HKIEd was officially retitled The Education University of Hong Kong (EdUHK) on 27 May 2016. EdUHK was granted full self-accrediting status for all its programme offerings from 1 April 2018.

TEN-YEAR STRATEGIC PLAN

The Strategic Plan 2016-2025 articulates our vision, mission, core values and strategies that will shape and guide the University’s developments under the “Education-plus” approach. It is the product of collective wisdom of the entire University community gained through an extensive engagement exercise. It reflects our strong commitment to making continuous enhancements in learning, teaching, research and knowledge transfer, and our aspiration of having positive impacts on social progress and human development in the local, regional and global contexts.

PROGRAMMES

The University, as the largest teacher education provider in Hong Kong, offers teacher education programmes at different levels and study modes. Initial teacher education programmes such as the Bachelor of Education (Honours) Programmes and Higher Diploma in Education Programmes are offered to prepare beginning
teachers to teach in kindergartens, primary and secondary schools in Hong Kong. Postgraduate Diploma in Education Programmes are offered for university graduates aspiring to become professional teachers. In addition, four UGC-funded programmes in complementary discipline areas were offered, namely Bachelor of Arts (Honours) in Language Studies and Bachelor of Social Sciences (Honours) in Global and Environmental Studies starting in 2010/11, Bachelor of Arts (Honours) in Creative Arts and Culture in 2011/12 and Bachelor of Social Sciences (Honours) in Psychology in 2012/13. In anticipation of the upcoming demand for secondary school teachers, the University has developed three new UGC-funded Bachelor of Education programmes, namely Bachelor of Education (Honours) in Chinese History, Bachelor of Education (Honours) in Science and Bachelor of Education (Honours) in Geography in 2016/17. A new UGC-funded Bachelor of Arts (Honours) in Special Education programme, and a two-year Bachelor of Arts (Honours) in Teaching Chinese as a Second Language programme specially designed for senior year entry were offered in the same academic year. Tapping the University’s multidisciplinary subject strengths, three new UGC-funded co-terminal double degree programmes were also launched, namely, Bachelor of Arts (Honours) in Creative Arts and Culture and Bachelor of Education (Honours) (Music), Bachelor of Arts (Honours) in Creative Arts and Culture and Bachelor of Education (Honours) (Visual Arts), and Bachelor of Arts (Honours) in Language Studies and Bachelor of Education (Honours) (English Language). A holistic curriculum review of BEd programmes has been underway since September 2016 with the objectives of driving interdisciplinary development, providing more space and flexibility for student learning, and nurturing quality educators and professionals in response to emerging community needs. The new BEd curriculum is targeted for implementation from 2019/20 onwards.

The University has started to admit research postgraduate students since 2009/10. A wide array of new self-financed taught postgraduate degree programmes, in addition to the doctoral and master’s degree programmes, are offered for educators and professionals in education settings who aspire to seek professional advancement. To cater for the need of professional development of in-service teachers, the University has developed a structured and systematic range of full-time and part-time professional development programmes at pre-primary, primary and secondary levels. In 2017/18, the University has offered three research postgraduate programmes for about 90 students, 38 taught postgraduate programmes for about 2,400 students, 44 undergraduate programmes for about 6,550 students, three sub-degree programmes for about 740 students and 51 professional development programmes for about 1,500 students.
RESEARCH AND KNOWLEDGE TRANSFER

Tapping its established niche in education and newly emerged strength in multidisciplinary subject areas, the University advances knowledge boundaries through its research. The knowledge created from research is further applied and transferred to benefit the school sector and wider communities. As of June 2018, with the newly funded projects and those previously awarded, senior academics and emerging young scholars at the University are undertaking 175 ongoing projects funded by the Research Grants Council (RGC) and other funding bodies*, with a total awarded amount of HK$105.83 million, on a wide array of disciplines and subjects, including Education, Social Sciences, Psychology and Linguistics, Humanities and Arts, among others.

To promote research development and cross fertilisation of knowledge, the University has identified major areas where academic and teaching staff members are encouraged to tap into their individual expertise and collaborate in promoting multidisciplinary research. These include: Education Policy, Leadership and Society, Special and Inclusive Education, Childhood and Family Studies, Curriculum, Pedagogy and Assessment, Social and Policy Studies, STEM Education and Environmental Studies, Creative Arts and Culture, Linguistics and Language Education and Literature and Historical Studies.

With its enhanced research capacity, the University has become increasingly active in creating knowledge with great application value and relevance for the well-being of society.

Since the upgrade of Knowledge Transfer (KT) Unit to KT Sub-office under the Research and Development Office in late November 2016, the University has been focusing on building the bridges and connections between the University and the wider community for identifying potential partners as well as colleagues’ research with KT potentials, and has been actively seeking to disseminate its research findings through different KT projects to benefit the school sector and members of the general public.

*Other funding bodies include the Policy Innovation and Co-ordination Office (PICO), the Food and Health Bureau (FHB), the Standing Committee on Language Education and Research (SCOLAR), the Innovation and Technology Commission (ITC) and the Environmental Protection Department (EPD).
CAMPUS

The University moved to the Tai Po campus in October 1997. The purpose-built campus, settled in the lush greenery on a mountain, is divided by a central spine road with student hostels and staff quarters in the upper zone and academic and sports facilities in the lower zone. It also links the Main Entrance in the south to the Amenities and Sports Complex at the northern end of the campus.

The Main Complex consists of eight blocks of academic buildings which house the academic staff offices and teaching facilities. The Central Facilities Building is located at the centre of the Main complex. It houses the Library, the IT Help Desk, lecture theatres, the Learning Commons area, a convenience store, student activity rooms and canteens. It also has a Central Plaza covered with a canopy which is the hub of the University for many university-wide events and students activities.

The Amenities and Sports Complex at the northern end of the campus consists of a Conference Centre, departmental offices and sports facilities which include an outdoor swimming pool of Olympic standards, an indoor training pool, a main gymnasium, a practice gymnasium, sport climbing gymnasium, two fitness rooms, squash courts and sports laboratories. An off-campus sports centre is located at Pak Shek Kok. As part of the EdUHK campus, the 13-acre sports complex located at Pak Shek Kok houses outdoor facilities including a track and field, two full-sized soccer pitches and five tennis courts for our students, staff members and partners.

For the convenience of students of part-time in-service programmes, classes are also conducted in the University’s Tseung Kwan O Study Centre which is located near the Po Lam MTR station.

SCHOOL OF CONTINUING AND PROFESSIONAL EDUCATION

Acting Director:
Professor Joanne CHUNG Wai-yee

The EdUHK School of Continuing and Professional Education Limited ("SCPE"), a company limited by guarantee, was established in June 2006 to set up, maintain and operate, in conjunction with the EdUHK, for the promotion and advancement of professional, technical and continuing education.

Since August 2012, SCPE has refocused its work in the context of EdUHK’s strategic development and the UGC’s policy framework guiding post-secondary education. SCPE is currently under restructuring with a view to focusing on professional development activities.
Part III
Research and Development Centres
UNIVERSITY RESEARCH AND PROFESSIONAL DEVELOPMENT CENTRES

The University-level Research and Professional Development Centres concentrate their efforts on Centre of Excellence (CoE), aspiring to become the new foci of cutting-edge research activities with long-lasting impacts in the region and worldwide.

The Academy of Hong Kong Studies

Hong Kong Studies is an interdisciplinary field of area studies that takes “Hong Kong” as a central subject of analysis, and The Academy of Hong Kong Studies (AHKS), established in July 2015, is the first academy dedicated to fostering Hong Kong Studies within local tertiary institutions. Adopting the strategic direction of “Worlding Hong Kong Studies”, the AHKS drives interdisciplinary knowledge creation and transfer initiatives on Hong Kong-centric subjects and fosters the development of a cross-regional Hong Kong Studies research community.

The Vision, Mission and Values of AHKS are as follows:

- **Vision:** The vision of the AHKS is to become a world-class academy that synergises Hong Kong-focused knowledge creation and transfer activities.

- **Mission:** Adopting the strategic direction of “Worlding Hong Kong Studies”, the mission of the AHKS is to drive interdisciplinary knowledge creation and transfer initiatives on Hong Kong-centric subjects within the context of inter-global city studies with a view to raising the standards of governance and public policy-making in Hong Kong and improving the quality of life of Hong Kong people.

- **Values:** Engaging (building bridges among stakeholders including government, political parties, business, universities and schools, civil society), energising (stimulating social discussions by communicating research findings to a wider community) and envisioning (fostering research and education activities with a long-term strategic focus).

To foster interdisciplinary knowledge creation and transfer in the area of Hong Kong studies, the AHKS organizes various conferences and forums in the area of Hong Kong Studies, such as Hong Kong Studies Annual Conference, Global City
Roundtable, Reading Hong Kong Series. It also engages in offering different types of executive education, summer programmes and training services, such as Professional Development Programme for serving teachers, Hong Kong Studies Summer School for secondary students, and Hong Kong Studies Research School for PhD students.

The AHKS has also operated a Social Science Data Laboratory as its research arm providing a wide range of customized research services to external clients, such as telephone surveys, school surveys, postal surveys, online surveys, street-intercepts, personal-interview surveys, content analysis and focus groups.

The Joseph Lau Luen Hung Charitable Trust Asia Pacific Centre for Leadership and Change

The Joseph Lau Luen Hung Charitable Trust Asia Pacific Centre for Leadership and Change (APCLC) at The Education University of Hong Kong aims to be a valued partner creating and transforming knowledge for the development of leadership for learning and change in the Asia Pacific region. The missions of the Centre are:

- to discover new knowledge about leaders that is grounded in local, regional and global contexts;
- to enhance capacity for leadership development through the design and evaluation of leadership learning programmes;
- to build capacity for research and development among scholars and institutions in the Asia Pacific; and
- to be recognised as a hub linking regional and global leadership universities, centres, and scholars.

The Centre’s R&D agenda focuses on:

- identifying indigenous as well as common characteristics of successful leadership and change in the region;
- understanding and describing how leaders at all levels contribute to the successful learning;
- gaining insight into the ways in which societal culture and other features of context impact the practices of leaders;
• increasing understanding of the methods, processes and outcomes of leadership preparation and development;

• providing insight into education reform and change in local and regional contexts and in international schools;

• developing knowledge-based tools that increase the impact of leadership development on learners;

• fostering research and development on leadership and change through partnerships and global networks; and

• contributing to the development of leadership capacity in schools and organisations in the region.

The Centre stresses the importance of leadership and leadership development for achieving sustainable change in school systems. These represent key targets for the Centre which focuses on creating research-based knowledge on the practices of leading change, innovation and school improvement in the region.

The Centre also builds on a strong regional foundation of leadership development by contributing new research grounded in the region. This research draws on global theories of leadership as well as exploring indigenous conceptions of leadership. It also creates and transforms knowledge gained from research into practical tools.

Assessment Research Centre

Established in 2009, the Assessment Research Centre (ARC) is a university-level research centre committed to the generation and dissemination of new knowledge from frontier research on assessment. We provide strong leadership in assessment research in the Asia Pacific Region; create and disseminate new knowledge in analysis, assessment, and measurement; advise practitioners and policymakers in education and other areas; develop younger generations of assessment researchers; and foster the ongoing development of research partnerships and networks both regionally and worldwide to advance analysis, assessment, and applied measurement.

ARC is governed by Professor Ming Ming CHIU (Director), Professor Sing Kai LO (Co-Director), and two Associate Directors, Dr. Zi YAN and Dr. Joyce Lok Yin KWAN. Throughout the years, ARC has conducted over 30 funded/awarded research and development programmes. Projects supported by the General Research Fund (GRF) include (in alphabetical order):
• Advancing Cognitive Diagnosis Models: Developing, Evaluating, and Demonstrating Novel Models and Methods
• Exploring Effects of Teacher and Peer Feedback on Self-Directed Learning and Mathematics Achievement of Primary Students
• New Item Response Theory Models for Rater Errors
• The Role of Mathematics and Chinese Language in Driving Achievement Growth: What Drives What? A Latent Growth Curve Study

Our diverse programmes receive funding from many sources, including EdUHK, the Education Bureau, as well as local and overseas donors. Below are some key programmes implemented in recent years (in alphabetical order):

• Auto-scoring of Chinese Composition
• ‘Big Data’ for School Improvement: Identifying and Analyzing Multiple Data Sources to Support Schools at Learning Communities
• Cantonese Opera: Transmission for Sustainability in Hong Kong
• Differences in Open Classroom Climates of European Countries
• EdUHK Learning from its Big Data
• Interplay of Achievements in Mathematics and Chinese Language: A Six-Year Longitudinal Study
• Technology-Enhanced Learning and Assessment (TELA): Research-based Teacher Development
• Improving FEHD’s Information Infrastructure

A series of seminars and training workshops on topics of Computerised Adaptive Testing, Self-directed Learning, Assessment For, Of, and As Learning, Rasch Modelling, etc., have aided knowledge transfer, benefitting over 8,500 researchers, school principals, teachers, students, and education policymakers in and beyond Hong Kong. On 8 and 9 February 2018, ARC organised the Technology-Enhanced Assessment Conference 2018 which served as a platform for over 200 local and international participants to exchange ideas on the best strategies and practices in innovative teaching, learning and assessment through technology. Apart from the above events, knowledge has also been shared through publications, for examples, 《羅氏測量：應用與導讀》(Traditional and Simplified Chinese editions) (2018), the Journal of Applied Measurement Book of Abstracts Volume I (2015) and Volume II (2014), and 《二十一世紀大學生學習素養談：香港傑出人士的分享》(2014).

By incorporating information technology into assessment and learning, ARC has developed several online platforms in recent years to promote the effectiveness
and efficiency of teaching and learning, namely the Computerised Kinetic Chain Assessment and Learning System (CKCALS) of Cantonese Opera, the Kinect-enhanced Conductor Training System (「小小指揮家」), and the Auto-scoring System of Chinese Composition.

In the future, more efforts focus on analysis of big data via artificial intelligence expert systems, for examples, on tests, essays, discussions and class activities, to improve teaching and learning; database enhancement; and exploration of artificial intelligence in education.

Centre for Governance and Citizenship

The main objectives of the Centre for Governance and Citizenship (CGC) are to promote the study of:

- Governance within an interdisciplinary framework that relates it to all aspects of civic life, including ethics, politics, public policy and administration, civil society and the economy.
- Citizenship in relation to ethics, rights, obligations, and identities, as well as the legal, moral, social, political and economic foundations of citizenship.

The Centre seeks to achieve two goals:

- Examine issues of Governance and Citizenship within a broad context, viewing citizenship as an integral part of ‘good governance’ and governance as ultimately enriching citizenship.
- Enhance the understanding of Asia by studying critical governance and citizenship issues in Hong Kong and the region.

The Centre engages in three sets of activities:

- *Academic discourse:* promoting academic scholarship and discourse on critical issues in governance and citizenship through research and publication activities from an Asian perspective.
- *Policy influence:* generating policy-relevant research and recommendations with the potential to shape policy formulation on issues touching on citizenship and governance.
- *Practical application:* promoting the use of its research findings in school
curriculum development as well as teaching and learning activities at the community level.

In future, the Centre plans to concentrate on the following three themes:

• Citizenship and Citizenship Education
• Citizenship, Human Rights and Social Justice
• Public Governance
Centre for Child and Family Science

Our Structure
The Centre for Child and Family Science (CCFS) has a responsibility and unwavering commitment to provide applicable research outputs, knowledge and services that support and applaud the relationship between the child, family, school and community. It will draw on interwoven expertise of academics within and beyond the University, and other professionals in the community, to achieve synergies and stimulate innovation. Structurally, CCFS comprises two units:

Research and Innovation Unit (RIU)
Specifically, the Research and Innovation Unit (RIU) defines the Centre’s research strategies and drives it towards growth with excellence and diversity. Emphasis will
be placed on innovative, interdisciplinary and interactive initiatives at an international level including:

- Producing and disseminating scientifically-derived knowledge on child and family studies, particularly in Asian contexts, through the delivery of applied research.
- Designing quality and innovative research for securing funding from different sources.
- Establishing networks across borders and cultures for academic collaboration and exchange.
- Facilitating the publication of high quality research outputs across platforms and formats.
- Bridging or bringing scholars, practitioners and agencies from multiple disciplines together to address education, social and cultural issues for healthy development of child and family functioning.

Professional Development and Support Unit (PDSU)

The Professional Development and Support Unit (PDSU) serves as a vehicle for moving research to practice and back, to have practice inform our research. It is tasked with the provision of quality professional development and supporting services to practitioners, agencies, systems and communities on all areas to help children and families thrive. Through these human services, the Unit also collects quantitative and qualitative evidence to support the Centre’s research.

Typical knowledge transfer activities around child development and family dynamics include:

- **Consultancy and training services** for schools, agencies, academics and practitioners to implement advanced practices, innovative initiatives, informed decisions and policies. Formats include partnership or commissioned projects, strategic consultancy and advisory, professional development programmes, community of practice, etc.

- **Conferences, seminars, forums and workshops** to disseminate research knowledge to the public, and academic and practitioners both locally and internationally.

- **Organizational/School-based Quality Improvement Scheme (SBQIS)** to empower organizations and schools in policy making, design and implementation of context-sensitive strategies, and effective deployment of resources to support positive development of children and families.
Centre for Educational and Developmental Sciences

Introduction

One in five people in Hong Kong lives in poverty. Both poverty and its associated effects on parental stress have negative impacts on children’s development. Coupled with a rapidly greying population, the need to give our children the education, upbringing, and environment to be the best they can be is more urgent than ever. The Centre for Educational and Developmental Sciences conducts research that helps us understand the factors that contribute to individual differences in development. The Centre also designs interventions that help level the playing field, so that children with diverse needs and backgrounds have the opportunities for optimal development. Bringing together colleagues with different expertise (e.g., early childhood education, special education cognitive development, educational neuroscience, language development, and pedagogical content knowledge) and methodological orientations (phenomenological, physiological, and psychological), our work is driven by the belief that, as society evolves, a thorough understanding of individual, social, and pedagogical factors are necessary to provide the knowledge needed for adaptation.

Vision

• To conduct world-class research that is recognised locally and internationally for the quality of its work, both academically and by societal impact.

Objectives

• To conduct basic research that helps us understand factors that influence (a) the development of key outcomes in numeracy, literacy, cognitive and socio-emotional skills, and (b) physical and psychological well-being.
• To conduct translational research and develop novel interventions that improve children’s developmental outcomes.
• To provide data for evidence-based refinement to teaching practices. Using longitudinal data on the interplay between pedagogy and development, a goal of the Centre is to develop teacher professional training material that showcases and provides concrete examples of what effective pedagogy looks and feels like.
Centre for Excellence in Learning and Teaching

The Centre for Excellence in Learning and Teaching (CELT) is established as a pedagogical professional development centre under the Faculty of Education and Human Development of the University. The Centre’s vision is to become a major professional development centre in Hong Kong and the Asia Pacific region, taking on a leading role in enhancing educator capacity and teaching effective pedagogies. CELT’s mission is to improve classroom learning, develop effective pedagogy and nurture excellent teachers. It aims to heighten teaching and learning effectiveness by embracing teaching innovations that meet ever-changing educational needs. The Centre will cater for diverse learners in all classroom settings in Hong Kong and the Asia Pacific.

CELT will have impact on local, regional and international contexts. Locally, it provides continuous consultancy services, professional development programmes and collaborative projects to schools that empower teachers and students to achieve excellence. Regionally, it develops an in-depth partnership with a large number of schools in the local context; and provides more channels for knowledge transfer activities and dissemination in other places of the Asia Pacific region. Internationally, it increases the level of scholarly activities and collaborations in research, professional training and publications between CELT and higher educational institutions in other countries. This will enhance the development of effective pedagogical practices in Hong Kong and contribute to University research outputs.

Centre for Lifelong Learning Research and Development

The Centre for Lifelong Learning Research and Development (CLLRD) is a research centre within the Faculty of Education and Human Development. The mission of the Centre is to enhance the quality, impact and understanding of the contribution of lifelong learning to academia and society. The Centre undertakes research and knowledge transfer projects that enhance lifelong learning with particular reference to Hong Kong, Mainland China and the Asia Pacific region, but also with a global network of associates and partners. The Centre is closely linked with the EdUHK UNESCO Chair in TVET and Lifelong Learning, the EdUHK Elder Academy, the International Education Research Group and the Philosophy in Education Group. Key areas of focus for the Centre are: skills for life and work, third age learning, international education and education for minority students.
The UNESCO Chair was launched on 12 January 2011. This was the first UNESCO Chair in Education awarded in Hong Kong. The Chair provides a focal point within EdUHK to support United Nations 2030 Sustainable Development Goals with an emphasis on Goal No. 4 - Quality Education. The Chair was awarded a second term in 2015 with Professor Bob Adamson as the Chairholder. The Centre focuses its Skills for Life and Work projects and development activities through the UNESCO Chair.

The Elder Academy (EA) was established in 2008 with a mandate to promote “Active Ageing, Active Learning” in order to enable elders to enjoy fulfilled lives through engaging in lifelong learning. The objectives are to encourage elders to continue to learn to maintain their physical and mental well-being; to foster a sense of worth; and to promote intergenerational harmony. The EA engages strategically and proactively in research, programme development, education and training projects that help elder students and elder teaching professionals, and also to connect older and younger students through common learning spaces and mentoring.

The Centre’s research and development work in the area of education for minority groups seeks to inform education policies, which, if implemented effectively, will enable minority groups to engage fully in the social and political life of mainstream society and create greater opportunities for personal and career development. The Centre’s work focuses on students whose first/home language is not Cantonese. The University has an important role to play in educating future teachers with the knowledge and commitment to effectively teach minority students. In mainland China, research continues in collaboration with a well established network studying multilingualism in ethnic minority areas. This ongoing project has been has been running for many years.

Work in International Education covers research and projects in the areas of International Schooling and international education for development. The focus is on: enhancing research and knowledge transfer in the areas of international education, comparative education and education for development; enhancing global perspectives; and developing programmes in learning and teaching in International Baccalaureate schools. The Centre has a flagship project - a Teaching Development Grant funded project in globalization which is designed to review Faculty programmes and enhance these to include more the global perspectives for our students.

Close cooperation continues with researchers, policy makers and practitioners to enhance lifelong learning research and development, with particular reference to promoting best and innovative practices, and to increase the international presence of the University. There is a high visibility of activities through the Centre’s publications in books, international journals, conference papers and online.
Centre for Psychosocial Health

Mission
Built upon the longstanding strength of The Education University of Hong Kong and the Faculty of Education and Human Development on research and practice in school settings and the existing strength of Department of Psychology in health and community psychology, the mission of the Centre for Psychosocial Health (CPH) is two-fold:

- To develop innovative theoretical base and multiple methods for investigating self-regulation and interpersonal regulation of emotions and behaviors that contribute to mental health and personal and relational well-being.

- To establish an evidence base for scalable education and intervention practices for enhancement of mental health in local and international contexts.

Current Focus
- School-age children and adolescents, parents and close social partners, and both pre-service and in-service teachers.

Overarching Theme
- Self-regulation and interpersonal regulation to promote physical and mental health in school and related community settings.

Sub-themes
- Interaction between Physical and Mental Health
- Interpersonal Science in School and Community Settings

In line with the overarching theme of self-regulation and interpersonal regulation pertinent to health, first, we seek to advance local and regional school-based mental health research and education by showing alterable and significant dyadic processes for enhancing physical and psychological well-being among both pre-service and in-service teaching professionals. Such evidence has tremendous potential to be applicable to other workplaces and in different socio-cultural contexts. Second, we shall explicate the basic interpersonal processes pertinent to health and well-being in close romantic and familial relationships, namely between parents (couples) and between children and parents/family. Specifically, both children with and without special learning needs will be studied. Such information is of high importance to family counseling and intervention, not only
for enhancing children’s engagement in school and class and academic performance but also children and their close social partners’ holistic health. Potential findings of the projects will contribute to evidence based, programmatic interventions and psychoeducation.

**Psychological Assessment and Clinical Research Unit**

The Psychological Assessment and Clinical Research Unit (PACRU) was established in November 2017 under the Centre. The Unit operates as a service and a research unit. Apart from providing various specialized psychological services to the general public, the Unit also conducts research projects that are relevant to human cognitive, behavioural, and emotional functioning. Specialized services within the discipline of psychology are provided by registered clinical psychologists, educational psychologists, or counsellors.

**Centre for Religious and Spirituality Education**

The Centre for Religious and Spirituality Education (CRSE) is a development centre under the Faculty of Education and Human Development (FEHD). The Centre was established in 2006 with generous donations from five school-sponsoring religious organisations: Catholic Diocese of Hong Kong, Ching Chung Taoist Association of Hong Kong, Hong Kong Sheng Kung Hui, Sik Sik Yuen and the Hong Kong Buddhist Association. Since 2010, we have established collaborative relationships with different agencies and have received various sponsorships and donations in support of the Centre’s projects and activities. We look forward to future collaborations with other organisations in creative and productive ways.

**Mission and Tasks of the Centre**

1. To promote religious, spirituality, life, values and holistic education (especially the newly-emerged domains due to changing social needs) to schools through various programmes and projects based on professional consolidation of good practices / research;

2. To foster public awareness of the focused education areas, so as to establish critical mass and collaboration with various organisations and stakeholders for further development; and

3. To enkindle policy advocacy by collaboration and synergistic effects with various organisations, especially NGOs and think tanks, to convince both the public and government authorities that life and values education underpinned by a concern for spirituality and values is an essential component of the school curriculum, and eventually achieve related policy change and support.
The CRSE initiates, and where appropriate coordinates, the offering of courses in the area of Religious and Spirituality Education. As part of the cooperation with the IELL, the Centre currently provides elective General Education courses and the Master of Education programme in philosophy, religion and spirituality for students. The University also offers the Doctor of Education programme in the area of Life and Values Education, for educators who are interested in developing their academic research and professional expertise in the domains of religious and spirituality education as well as life and values education. The first certificate in Professional Development Programme on Hong Kong Life Education for teachers was held in April 2018 by the CRSE on the implementation of Life Education in primary, secondary and special schools.

The Centre also endeavours to promote awareness of and interest in religious, life education and spirituality issues across the campus and beyond through research and development projects, publications, academic conferences, seminars, talks and workshops.

The Quiet Room (B3-P-09A), Spiritual Activity Room (B4-P-01) and the Garden in front of the Centre are specially installed for members of the University to conduct spiritual practices or simply to rejoice a moment of silence.

**Centre for Special Educational Needs and Inclusive Education**

In line with the contextual development, service needs and research practice of inclusive education in Hong Kong, the Centre for Special Educational Needs and Inclusive Education (CSENIE) in the Faculty of Education and Human Development aims at promoting the betterment of inclusive education through the joint effort of the colleagues, with expertise and research interest in inclusive education as well as special needs, from different departments. The developmental needs of our University, schools and community are expected to be met appropriately in the variety of activities in teaching and learning, research, academic exchange and scholarly activities.

CSENIE takes up the role of research and betterment of inclusion, on the basis of self-financing mode. In recent years, in achieving the aims of advancing inclusion and catering for diversity, we are proud of soliciting colleagues’ support, building up the resource centre, supporting school-based staff development, conducting research projects and producing publications. We also build up partnership with international scholars for the diversified professional development, academic exchange, research
Through different enrichment programmes, e.g. “Teacher-in-Training Ambassador Programme for Specific Learning Disability” and “Best Buddies”, we foster the caring attitude of our course participants. To strengthen the training for teachers and teaching assistants in mainstreaming schools and special schools, we support the Education Bureau by coordinating a wide range of special education courses. With external and internal funding, we offer consultancy and school based support; and conduct research in inclusion in local and regional contexts. In these years, we successfully extend our training work to Macau and Mainland China.

**Integrated Centre for Wellbeing (I-WELL Centre)**

FACULTY OF HUMANITIES

Centre for Popular Culture in the Humanities

The Centre for Popular Culture in the Humanities (CPCH), previously known as The Centre for Popular Culture and Education, was established in 2010. Popular culture is one cross-disciplinary area that offers considerable potential for development through research that bridges language, literature and new media within the broad frameworks of Language Studies and Cultural Studies. The CPCH adopts a broad view of popular culture that covers both the culture of everyday life and its mediation through print (newspapers, magazines, literature), multimodal media (music, cinema, photography and advertising, visual and material culture), and new digital media of various kinds.

From the vantage point of Hong Kong, the CPCH explores issues of popular culture in the Humanities, particularly from an Asian perspective. The study of everyday popular culture, for example, is examined in the context of the urban spaces of the modern and postmodern Asian city, while mediated popular culture is studied in the context of the developing popular culture industries of East Asia. Relevant perspectives on Asian popular culture include postcolonial studies, migration studies, urban and spatial studies, gender studies, and cultural history. There is also a focus on new multilingual and multicultural forms of culture in Asian settings, which are increasingly replacing their traditional monolingual/multicultural predecessors.

Located in The Education University of Hong Kong, the development of research expertise in areas complementary to education is a priority. The CPCH maintains a focus on educational implications and applications of developments in popular culture. This includes an interest in the role of popular culture in Humanities disciplines and General Education at the tertiary level. Through the organization of film screenings, salons, seminars, colloquia, symposia and conferences as well as providing support for individual research projects, CPCH serves as a platform for the promotion of research activities in popular culture at the University.
Centre for Research on Linguistics and Language Studies

The Centre for Research on Linguistics and Language Studies (CRLLS) aims to take a broad and intellectually stimulating perspective into language and linguistics research at the University. While EdUHK has transformed to an education-focused, multidisciplinary, and research-strong university, the establishment of CRLLS is to foster the research capacity in and contribute to the areas of linguistics and language studies for the advancement of the humanities.

The Centre comprises three thematic groups:

(a) Corpus linguistics and language technology: One of the major research areas is corpus linguistics involving the use of authentic and natural language data.

(b) Language Learning and Acquisition: This group will adopt a cross-linguistic approach to research into issues related to the cognitive aspects of language learning and language acquisition, language learner variables, learner autonomy, language assessment, and their applications in language teaching.

(c) Language in Society: To conduct research on language-contact and cross-cultural phenomena in the Hong Kong society.

Objectives

• To undertake scientific research in the areas of linguistics and language studies for the advancement of the humanities and the sciences involving language, and of education;

• To promote the development of new methodology and technology to enhance language learning and teaching, and research;

• To synergize research efforts and to create critical mass among colleagues within EdUHK and researchers in Hong Kong; and

• To promote international collaboration through networking with other key players in selected fields within the ambit of “Linguistics and Language Studies”.

Research Centre for Chinese Literature and Literary Culture

Background

The Research Centre for Chinese Literature and Literary Culture (RCCLLC) is established in response to the development of the EdUHK, the knowledge production trends over time, and the needs of our learning society.

To echo the strategic plan of transforming into a multi-disciplinary university of education focusing on education and complementary areas of study, “Chinese language and literature” is recognised as one of the potential subject areas to be developed at the University. The RCCLLC can combine the critical mass and resources in the Faculty of Humanities to launch all-rounded studies on Chinese literature and literary culture. The establishment of the RCCLLC is an effective development strategy for the University to foster its research capacity and make significant impact on the field of Chinese studies regionally and internationally.

The concept of “literary culture” is an extension of the more traditional idea of “literature”. Apart from researches on literary works and their authors, literary thoughts and schools, genres and styles, and literary influences – the areas regarded as “literature proper”, the study of literary culture also includes explorations of the generation and dissemination of literary texts and literary knowledge. In this regard, the publication and marketing of literary works, literature education, literary historiography, filmic and television adaptations of literature, graphic novels and lyrics of pop songs will be among the legitimate study areas. By the same token, Hong Kong literature and children’s literature which have long been marginalized in the research of Chinese literature will be an indispensable part of literary culture.

Aims and Objectives of the RCCLLC

- In accordance with the new direction of transforming the EdUHK into a multi-disciplinary university, the RCCLLC aims at enhancing the quality of subject knowledge research so as to create a favourable environment for the development of discipline-based postgraduate research degree programmes;
- The RCCLLC promotes the culture of collaboration in research, by teaming experienced academics with juniors to work on projects and explore the possibilities of obtaining outside funds such as GRF;
- Through publishing research outcomes, participating in and organising international conferences, the RCCLLC aims to expand Centre members’ research capacity while fostering the EdUHK’s academic image; and
- Emphasising the linkage between the production of literary knowledge and
literature education with an awareness of the Hong Kong context, the RCCLLC aims also at further consolidating the strength of the EdUHK in educational research and application.

Scope of Research

The RCCLLC takes Chinese literature and related cultural phenomena as research objects. Its scope can be briefly categorised into three areas:

- Literature as such: research topics include major authors and works, literature trends and schools, literary genres and styles, literary influences and others;
- Cultural artifacts and phenomena generated from literature: research topics include anthologies of literary works, literary picture books, filmic and television adaptations of literature, lyrics of pop songs and others; and
- Transmission of literary knowledge and literature education: research topics include production and marketing of literary texts, reading culture, literature education and others.

Centre for Greater China Studies

The Centre for Greater China Studies (CGCS) at The Education University of Hong Kong was established in September 2010 with the aim to promote interdisciplinary and cutting-edge research with a focus on the multidimensional transformations of Greater China, Asia and beyond.

After more than thirty years of economic reform and restructuring, China has now become the world’s largest manufacturing sector with impressive and consistent economic growth. The market transition taken place in China has not only turned the country into a major world economic power but also a significant player in global politics. The Centre aims at embarking on comparative research related to how major societies in Greater China have responded to the rise of the Mainland of China, with particular reference to critically analysing the dynamic development, unique governance and changing policy of Hong Kong, Macau, Taiwan and the Mainland of China in the context of the reemergence of the People’s Republic of China as a world power.

As one of the strategic research units of the Faculty, the CGCS has been organising research conferences, seminars, and symposia related to development, policy and governance in the Greater China region. Through developing an interdisciplinary research strategy and networking with leading academic and research institutions and prominent scholars in Greater China and overseas countries, the Centre hopes to bring together active researchers in Greater China studies at the EdUHK to engage the wider policy community in critically examining various kinds of academic, policy and practical issues.

The major research themes of the Centre for Greater China Studies include:

- Cooperation between Greater Pearl River Delta (PRD), Hong Kong and Taiwan
- Educational, Cultural and Social Change
- Comparative Development, Public Policy and Governance
- China and the Globalising World

The Centre has strong links with both international and regional research consortia. It is also active in promoting academic dialogue and in-depth discussion related to Greater China issues.

Besides, CGCS also invites prominent academics, experts and visiting scholars worldwide to give lectures at the Centre to deepen students’ and EdUHK intellectuals’ understanding and interest in the development of Greater China and its interactions with the world.
As a leading research centre offering quality education programmes to nurture students to become caring leaders with global visions, the CGCS is committed to continuously providing training and education for students to deepen their understanding of the development, policy issues and governance of Greater China.
Part IV

Academic Support, Facilities and Services
ACADEMIC SUPPORT, FACILITIES AND SERVICES

Teaching and research at the University are supported by a number of academic services/centres.

Centre for Language in Education

The Centre for Language in Education (CLE) supports the University’s mission to nurture bi-literate and trilingual students to become global citizens. To cater for the new needs and challenges in the changing educational landscape, CLE has been constantly refining and perfecting its Chinese, English and Putonghua language support services offered to local, mainland and international students.

As one of the university language centres in Hong Kong, CLE adopts best practice benchmarking to enhance language learning. CLE’s active collaboration with local universities in funded projects and engagement of internationally-renowned scholars in consultancy work and professional development for colleagues are ongoing efforts of CLE’s benchmarking at local and international levels.

In the delivery of language enhancement courses, CLE endeavours to

- demonstrate excellence in curriculum design in all programmes for different student groups;
- provide models for language teaching; and
- consolidate assessment for learning in the assessment of students’ learning outcomes.

To provide students with more non-formal language learning opportunities, CLE complements classroom learning by

- designing and organizing co-curricular and extra-curricular language activities; and
- providing a range of self-access and independent learning resources, multi-media facilities and intercultural activities at the Arthur Samy Language Learning Centre.

As language educators, the teachers of CLE enjoy working with students as they seek out-of-class language support that is offered on a one-to-one basis, in small groups or through workshops and contests.
Centre for Learning, Teaching and Technology (LTTC)

The Centre is an academic and professional supporting unit at the University. It aims to enhance student learning outcomes by applying information technology to support the development of learning and teaching, and the improvement and innovation of assessment at the University.

The Centre provides a range of services for staff and students, including:

1. **Staff Professional Development (PD) Programme**
   
   LTTC has developed the Staff PD Programme for all academic/teaching staff of the University. In partnership with individual academics, academic departments and Teaching Development Grant project teams, LTTC has been organising series of PD activities to prepare new academic/teaching staff for teaching and to enhance staff capacity to advance student learning. LTTC also provides support for the Peer Support of Teaching Scheme, which promotes peer dialogue on teaching and sharing good teaching practices.

2. **E-Learning and ePortfolio Workshops**
   
   LTTC offers various workshops on e-Learning and ePortfolio building to students. The Centre also co-organises workshops with faculties and departments on the use of other e-Learning tools and related pedagogical strategies in support of the University’s implementation of e-Learning Policy. Staff and students are welcome to enroll in the workshops by visiting LTTC website.

3. **User Guides in LMS Moodle and ePortfolio Platforms**
   
   LTTC has developed various online user guides in Moodle, Mahara, Sway and Google Site to support staff and students. Staff and students are welcome to get the related self-learning materials from LTTC website.

4. **Generic Intended Learning Outcomes (GILOs)**
   
   LTTC administers a self-assessment questionnaire survey for measuring students’ self-perceived achievement on GILOs. Students will receive an individual report which helps them to write reflection and set learning goals through ePortfolios. LTTC also provides insights for students and staff to connect GILOs to their learning and teaching.
5. **Information Technology Competency in Education (ITCE)**

ITCE is implemented through IT ePortfolio Checking. Students are expected to demonstrate the required level of ITCE and are required to pass the IT ePortfolio Checking before graduation.

6. **Coding Education Unit**

The Coding Education Unit is the unit under LTTC, organises courses, seminars, workshops and other learning and teaching activities on coding, 3D printing and STEM education. To provide quality environment for students to learn and create, the laboratories are well-equipped with various digital devices. All students are welcome to enroll in the courses, seminars and workshops by visiting LTTC website.

7. **Video-based Learning Community (VBLC)**

LTTC aims at developing a user-friendly web-based platform for one-stop-service of managing, editing, and sharing videos in supporting learning and teaching. Members of VBLC are able to review, comment, or reflect upon the shared videos, thereby contributing to the co-construction of knowledge in teaching practice and/or some other teaching and learning activities such as field experience standardisation.

8. **Massive Open Online Courses (MOOCs)**

LTTC employs an open-source platform, edX, to facilitate the MOOC development in the University. LTTC also cooperates with faculties and departments to develop university-wide MOOC projects to enhance the capability and experience of academic and teaching staff of developing MOOCs.

9. **Video Production Room for Staff**

To cultivate an innovative and interactive e-Learning rich environment in the University, a Video Production Room will be setup under LTTC in 2018/19. Staff can produce video resources for daily presentation, and innovative e-Learning activities in an efficient and self-served flexible video production environment.
General Education Office

EdUHK offers General Education (GE) to enrich and broaden students’ intellectual development, and to introduce them to modes of thinking and knowing in a number of disciplinary and cross-disciplinary areas beyond their own programme majors. The EdUHK first implemented GE in 2005. The first cohort of undergraduate students taking GE graduated in June 2009.

Through its General Education Office (GEO), a new curriculum structure for GE has been implemented since 2016/17. The new framework begins with a 3-credit point GE Foundation Course which is mandatory (in Semester two) for all full time undergraduate first-year students. It reflects the interconnectedness and integrity of human experience, and focuses on the kinds of thinking that characterise disciplinary and inter-disciplinary inquiry. Based on a series of lectures given by senior EdUHK staff and invited guest speakers, and supported by small class tutorials which will function as communities of inquiry and dialogue, the course encourages students to regard themselves as reflective thinkers deliberating on issues of importance to their own lives, to society and to the world as a whole. The GEO provides professional development and ongoing peer support for all tutors in the GE Foundation Course.

After the completion of GE Foundation Course or concurrently with GE Foundation Course in Year 1, Semester two, students begin to take GE Breadth Courses. The GE Breadth Courses are categorized into four strands, they are Persons, Interpretations, Perspectives; Community, Society, Culture; Nature, Science, Technology; and Positive and Values Education. The courses offer 155 electives covering a wide variety of topics. These courses will extend students’ intellectual perspectives by inviting them to explore more focused topics across major fields of knowledge, specifically, arts and humanities, social sciences, and science and technology. Students are normally to take four 3-credit point GE Breadth Courses with one course from each of the four strands.

Students take a GE Consolidation Course to be their 3-credit point “capstone” course. After the completion of GE Breadth Courses or concurrently with the fourth (i.e. last) GE Breadth Course, students begin to take GE Consolidation Course. The GE Consolidation Courses will enable students to synthesize their learning experiences by reflecting critically on the value and significance of what they have learned, making connections to their lives, and imagining their own futures.
Global Affairs Office

The Global Affairs Office (GAO) serves as a central unit to support the internationalisation initiatives of the University to support its vision and mission, and to foster deep collaborations between the EdUHK and key universities and prominent education organisations in the region and overseas through staff and student exchange, collaboration in teaching and learning projects, research and scholarship and educational enhancement.

GAO fulfils its role through initiating and organising a variety of exciting and rewarding programmes, building overseas connections, recruiting non-local students, and raising the University’s profile beyond Hong Kong. Involving more than 120 universities and institutions worldwide, our Student Exchange Programme provides students a transformative chance by experiencing life in another location. Short-term study options such as cultural visits, summer programmes at partner universities and Learning Putonghua@Home with EdUHK are also made available.

In addition to degree-seeking non-local student recruitment, our inbound exchange programme, International Teacher Training Programme and short-term theme-based programmes bring overseas students to our Tai Po campus and create a vibrant and multi-cultural learning environment. GAO works closely with other units of the University to provide better campus support to the non-local students and sees integration among local and non-local students as integral to the advancement of internationalisation.

Hong Kong Museum of Education

Established in May 2009, the Hong Kong Museum of Education is the leading museum in the region to specialise in the preservation, research, interpretation and communication of the history of education in Hong Kong.

The Hong Kong Museum of Education acquires, conserves, preserves, researches and exhibits materials which relate to the history, culture and development of education in Hong Kong. The Museum has a role as a public institution to engage the community to source historical materials and build up resources to promote life-long learning through collaborative projects, partnership schemes, exhibition displays and interactive and educational activities. It also has an institutional role to serve as a locus for research and related scholarly activity pertaining to Hong Kong’s educational heritage for the teaching and educational research community of Hong Kong, the region and overseas.
The Museum currently houses and displays a wide collection of education related items and artefacts of historical value which were donated from individuals and organisations, including alumni of our predecessor Colleges of Education, alumni associations, or on-loan items from schools and other local museums. These items and artefacts include plaques, trophies, certificates, uniforms, teaching tools, textbooks, old photographs, historical documents, totalling more than 25,000 items.

In November 2017, the Museum launched the “Early Learning in Hong Kong: Past and Present”, a first-of-its-kind exhibition that systematically investigates the history and development of early childhood education in Hong Kong. The Museum also collaborated with other University departments and units in projects such as “Re-encountering Confucius”, “Children’s Songs and Paintings Contests”, “Six Arts and Five Constant Virtues Carnival” and initiated projects such as “Six Arts Game Design Contest” to further engage the local school community and reach out to the public.

With the introduction of a “Friends of the Hong Kong Museum of Education (HKME Friends)” programme in 2014, the Museum seeks to recruit members who are united by a passion for preserving the rich educational heritage of Hong Kong and supporting the Museum’s mission and development. Through a vibrant calendar of events, talks, classes, exclusive tours and gatherings, the programme delivers meaningful and enjoyable experiences for our members.

The Museum will continue to play a leading role in exhibiting aspects of Hong Kong’s educational history to the public, and seek ways to integrate more fully into the teaching, learning and research activities at the University.

Student Accommodation

There are four UGC-funded student halls/quarters on Tai Po Campus, namely Northcote Hall, Grantham Hall, Robert Black Hall and the Jockey Club Student Quarters, providing about 2,200 residential places. The Northcote Hall, Grantham Hall and Robert Black Hall provide shared twin study-bedrooms, budget 3-person room and communal facilities such as activity rooms, laundry rooms, bathrooms/toilets, and pantries. Each study-bedroom is also equipped with computer ports and telephone is provided in each pantry. The Jockey Club Student Quarters comprises 9-person or 12-person flats, each with single.double/triple bedrooms, its own sitting/
dining areas, terrace, kitchen, laundry room and bathrooms. Telephone lines and individual computer ports are also provided. Only students of the same gender may live in the same study-bedroom/flat.

Hall life gives students an opportunity to develop life skills through self-management, learning the art of negotiation and the value of independence. All first year full-time students on a UGC-funded undergraduate programme will be offered guaranteed hall residency for 2 semesters, one of which to be taken up during the first year of study. Full-time research postgraduate students (RPgs) and incoming exchange students with guaranteed hall place will have higher priority for allocation by randomized sequence of student lists. Remaining hall places will be allocated to UGC-funded full-time undergraduate students and other UGC-funded full-time students according to the Hall Point System.

The Hall Management Section of SAO is responsible for the management of the four student halls/quarters and provision of hall-life education to student-residents. All hall-related information is accessible at the Section’s homepage (https://www.eduhk.hk/sh). For enquiries, please email to hall-sao@eduhk.hk or dial 2948 6868.

**Student Health Service**

The Health Centre provides primary medical services to all students, staff and authorised users. All students are charged at a nominal fee of HK$20 for each general consultation. Special services provided at the Health Centre include nutrition advice service, annual health check-up, gynae check, laboratory and X-ray services, vaccination, injection and simple surgery. Emergency service is also available. To achieve holistic health for all, the SAO and the Health Centre organise regular health education programmes to help broaden the health knowledge of the students and to promote preventive healthcare. Besides, Voluntary Student Dental Plan is offered and a total of 10 off-campus dental clinics are available. The annual fee in 2018/19 is HK$175 for full-time UGC-funded students and HK$370 for other students (include full-time self-financed and all part-time students).

**Campus Life**

To achieve the goal of whole-person development, students are encouraged to gain different experience on campus that indeed requires a careful planning as the initial step. The SAO therefore launched a University Life Planning scheme which is an advising scheme to help all undergraduate students plan for personal development
path of non-formal learning experience. The Student Development Tutors (SDTs) meet students individually or in small groups. In the advising sessions, SDTs provide guidance to students with reference to their Whole Person Development Inventory (WPDI) report, goals, values, strengths and weaknesses so that students should be able to design their own personal development plan for campus life.

In addition to SDTs, a group of senior students would also serve as Campus Life Tutors (CLTs) to provide support and guidance to all new undergraduate and higher diploma students during their first semester to promote adjustment through peer mentoring and forge connectedness to the university and peers. CLTs will accompany new students in campus activities, provide insider information, share personal experiences, assist them adapting to university life and build social network. They also serve as mentors in the University-wide New Student Friendship Day before commencement of the academic year.

By becoming university students, students are encouraged to participate in and organise co-curricular activities that focus on their development in life values, problem-solving abilities, physical health, interpersonal relations, work attitudes, constructive use of leisure, and a world-caring life style. It is hoped that students can integrate constructive values, positive attitudes, knowledge, and generic skills necessary for meeting the changing needs of society of today. Students’ participation in co-curricular activities, internship programmes overseas service leadership training tours, local community services, non-academic achievement and contributions to the University and student organisations is recorded in the Experiential Learning and Achievements Transcript (ELAT). There are various awards set up to recognise students’ leadership abilities and achievement in self-directed learning through organising activities.

**Students’ Union**

The Students’ Union was formally established in May 1995. Besides organising a wide range of activities and providing welfare services for students, the Students’ Union also involves in the policy-making and administration of the University through nominating student representatives to the Council, the Academic Board and other committees at the university level. Student societies are affiliated with the Students’ Union to engage students with similar hobbies and interest.

<table>
<thead>
<tr>
<th>Course Grade</th>
<th>Interpretation</th>
<th>Grade Point Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+*</td>
<td>Distinction</td>
<td>4.33</td>
</tr>
<tr>
<td>A</td>
<td>Distinction</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>Distinction</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>Good</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>Good</td>
<td>2.67</td>
</tr>
</tbody>
</table>

* Grade A+ is only given for outstanding performance in the course.
* Pass or Fail will be given for grading Field Experience (not counted in Grade Point Average or Grade Point Equivalent calculation)
8.1.2 Students’ performance in the programme as a whole is described in a Programme Grade Point Average (GPA), which can be calculated by:

(i) multiplying the Grade Point Equivalent* (GPE*) for each course by the number of credit points (CPs) of the course (GPE x No. of CPs of the course); then

(ii) adding the corresponding figures for all the courses in the programme; then

(iii) dividing that total by the total number of CPs in the programme (excluding Field Experience) as a whole, as indicated below:

\[
\text{Programme GPA} = \frac{\text{Sum of (GPE x Course CPs)} \text{ for all courses in the programme}}{\text{Total no. of CPs in a programme (excluding Field Experience)}}
\]

* Grade Point Equivalent - as given in the table in 8.1.1 above.
8.1.2.1 For the purpose of GPA calculation, the GPEs (Grade Point Equivalents) of any repeated courses and the corresponding credit points attempted will supersede those of the failed core courses. 

(applicable to students admitted in 2010/11 or before)

8.1.3 Students’ performance in a programme within a prescribed period of time, excluding courses without grade point equivalent, is described in a Programme GPA, which is calculated by the sum of the product of GPE earned for each course attempted (including failed courses) and its credit points within a programme, divided by the total number of credits attempted within a programme:

\[
\text{Programme GPA} = \frac{\text{Sum of (GPE x Course CP) within a programme}}{\text{Total no. of CPs within a programme}}
\]

8.2 Review of Course Grade

8.2.1 Resolving grade disagreements with the lecturers concerned

A student who disagrees with a course grade should approach the course lecturer or Field Experience Supervisor concerned immediately after the announcement of the assessment results approved by the Head of the course-offering unit. The course lecturer or Field Experience Supervisor may recommend a grade adjustment if he/she finds any technical errors (such as wrong score entries, or calculation errors when totalling marks) or after hearing the student’s representation. Recommendations for grade adjustments should reach the Chairperson of the Departmental Assessment Panel of the course-offering unit concerned or Field Experience Coordinator concerned with justifications for approval by the Head of the course-offering unit. The student will be informed of the result as soon as possible.

8.2.2 Formal procedures on grade reviews

If the student remains dissatisfied with the outcome after contacting the course lecturer or Field Experience Supervisor according to the procedures in paragraph 8.2.1, he/she may request for a formal review of his/her course grade(s), for one or more of the following reasons:

(i) the assessment result has been caused by a material error or irregularity in marking;

(ii) the assessment was not conducted in accordance with the General Academic Regulations and the assessment scheme for the programme concerned; and

(iii) there are special circumstances which the student has not been able to present to the relevant Head of the course-offering unit prior to the decision being made.
8.2.3 The formal request for a grade review should be made by the student to the Dean of Graduate School (for MEd/EdD) / Faculty Dean (for other self-funded taught master’s programmes) in writing within 14 working days after the announcement of the assessment results approved by the Head of the course-offering unit.

8.2.4 Upon receipt of the request, the Faculty Dean/Dean of Graduate School will pass it to the faculty/department/centre/office concerned. In light of the course-offering unit’s response, the Faculty Dean/Dean of Graduate School will decide whether there are prima facie grounds for review. If so, the Faculty Dean/Dean of Graduate School will inform the respective Head of the course-offering unit for follow-up action.

8.2.5 The Head of the course-offering unit will re-convene the Departmental Assessment Panel meeting to hear the case. The student concerned will be invited to attend the hearing with the right to be accompanied by one other current student or staff of the University. In the case of internal disagreements or other exceptional circumstances, an external view may be sought.

8.2.6 The Head of the course-offering unit after consideration of the case including the recommendation from the Departmental Assessment Panel, if any, will inform the student of the result normally within one month of the student’s request for review. Grades after review may be upgraded, downgraded or left unchanged. The decision of the Head of the course-offering unit is final.

8.3 Advanced Standing

8.3.1 Advanced standing will be granted to applicants who have completed a recognized programme at the University or other institutions before admission to the University’s programme. Upon approval for advanced standing, the credits obtained from the recognized courses will be transferred to the programme of study and the minimum programme requirements in credits will be reduced. Students are allowed to complete the programme within a shorter period of time. Students who are admitted with advanced standing will not be eligible for credit transfer or course exemption at a later stage on the basis of their entry qualifications.

8.4 Credit Transfer

8.4.1 Credit Transfer may be granted for courses completed successfully at the University previously or another accredited tertiary institution.
8.4.1.1 The transferred courses will appear on the student’s transcript. The credit points transferred will be counted towards the graduation requirements but will be excluded from the calculation of the student’s GPA. Students may apply for credit transfer within the first two weeks of each semester in each academic year. For courses on offer in the summer semester, applications should be submitted one week before the commencement of the semester.

8.4.1.2 The total number of credit points transferred will not exceed 50% of the total credit points of the programme.

8.5 Course Exemption

8.5.1 Course Exemption may be granted for courses completed in other institutions for recognized qualifications. Students who are so exempted must replace the exempted course with a course of the same credit value. The exempted courses will not appear on the student’s transcript and will be excluded from the calculations of GPAs.

8.6 Late Submission of Assignment

8.6.1 Students who wish to submit an assignment later than the due date should obtain permission in advance from the course lecturer; otherwise, this will be treated as failure to submit the assignment as required.

8.6.2 The grade of all assignments submitted late with the approval of course lecturers may be lowered, on a case-by-case basis, by up to one full grade.

8.6.3 Students who fail to obtain prior approval will be given a “fail” grade (grade F) for late submission or non-submission of assignments.

8.7 Repeating Courses

8.7.1 Students may be required by the Board of Examiners to repeat the failed courses or courses with a low grade (i.e. C- or D) to fulfil programme graduation requirements.

8.7.2 Normally, students are not allowed to retake a course completed and passed in a previous semester, unless it is required by the Board of Examiners. They may be asked to take other courses to improve their GPA.

8.7.3 Students who repeat a failed course are normally required to retake the full range of course activities, including attendance at lectures and all stipulated assessment tasks.
8.8 Academic Probation

8.8.1 Students will be put on academic probation in the next semester when their Semester GPA is below 2.00. They will not be allowed to take the study load beyond the maximum credit points (as specified by the programme) in the probation semester. Those who wish to take more credit points than what is stipulated in the programme should seek prior approval from their Programme Leader/Coordinator.

8.8.2 The academic probation status will be lifted, when a student obtains a Semester GPA of 2.00 or above at the end of the probation semester. Otherwise, probation shall continue to apply in the next semester unless 12.1(i) applies.

8.9 Field Experience

8.9.1 Field Experience is a salient component of some taught postgraduate programmes. Students should respect and observe the regulations of the schools/units/institute where they take their block practice, and display appropriate professional knowledge and attitude. Any misconduct, upon verification, will be subject to disciplinary action, up to and including immediate dismissal from the University.

8.9.2 Students’ performance in Field Experience will be graded as follows:

Students’ overall performance in Field Experience will be based on the grade in the final Block Practice/Field Experience/Practicum or the overall grade in the Block Practice/Field Experience/Practicum (whichever applicable) adopting a grading system of pass/fail.

9. Research Project

9.1 Specific guidance for preparation, presentation (if applicable), submission, and assessment of research project is specified in the corresponding course outline.

9.2 The research project should be completed within the stipulated period as specified by the respective programme.

9.3 If a student has been approved to complete the research project beyond the stipulated period, a Course Extension Fee as specified by the respective programme is required.

9.4 For completing dissertation and thesis or produce other publications, students should comply with Guideline on Ethics in Research as stipulated by the University’s Human Research Ethics Committee.
10. **Graduation Requirements**

10.1 Students are responsible for the completion of all the graduation requirements of the programme in which they are officially enrolled. To graduate, students must:

(i) achieve the minimum number of credit points required by the programme and satisfy all other stipulated programme requirements such as Field Experience, language exit requirements, and Dissertation/Thesis/Research Project (if applicable);

(ii) obtain a Programme GPA of 2.00 or above; and

(iii) complete the requirements as prescribed by the programme.

11. **Award Classification**

11.1 The Board of Examiners recommends classifications of award in accordance with the following guidelines:

<table>
<thead>
<tr>
<th>Award Classification</th>
<th>Overall GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Distinction</td>
<td>3.40 and above</td>
</tr>
<tr>
<td>Credit</td>
<td>2.70 – 3.39</td>
</tr>
<tr>
<td>Pass</td>
<td>2.00 – 2.69</td>
</tr>
</tbody>
</table>

12. **Discontinuation of Studies**

12.1 A student will normally be required to discontinue his/her studies at the University if he/she:

(i) fails to have probation lifted after he/she has been put on academic probation for two consecutive semesters; or

(ii) has received warning(s) but has failed to improve to meet the expectations of the University with respect to professional and personal behaviour; or

(iii) has exceeded the maximum period of study without prior approval as stipulated in 7.4; or

(iv) has simultaneously registered for another qualification at the University or a post-secondary qualification at any institutions without prior approval as stipulated in 6.1; or

(v) fails to meet the graduation requirement as prescribed by the Programme.
12.2 Normally, students who are required to discontinue their studies at the University will not be considered for re-admission to the same programme in the following three academic years.

13. Leave of Absence

13.1 In exceptional circumstances where students need to take a leave of absence for 30% of scheduled classes/lectures or more, students should inform their course lecturers and are required to obtain prior approval from the Programme Leader/Coordinator by submitting a leave application form.

13.2 Students who are absent for 30% of scheduled classes/lectures or more in a course without prior permission (as stipulated in 13.1) will be given a grade F (Fail) by their course lecturers. The grade F will be recorded on the students’ transcript.

13.3 Where necessary, individual courses/course lecturers/programmes/departments may specify their attendance requirements.

14. Deferment and Withdrawal

14.1 Students can apply for deferment of study if there is a genuine need. The period of deferment in each application is normally one semester. The deferment period is included in the maximum period of study (as stipulated in 7.3). A continuation fee per semester is required upon approval of the application. Students who have not settled the continuation fee will be considered to have withdrawn from the programme of study at the University (as stipulated in 4.1). No re-instatement of student status will be considered for withdrawal students.

14.2 Students who fail to return to the University to resume studies at the end of the approved period of deferment will be considered to have withdrawn from the programme, effective on the day following the deferment period.

14.3 Students who wish to withdraw from studies shall submit a withdrawal form to the University. Effective date of withdrawal is given 3 working days from the date of submission of the completed form.

15. Suspension of Student Activities

15.1 Field Experience Coordinators will report to the relevant Associate Dean to seek his/her approval in consultation with the Director/Co-director of School
Partnership and Field Experience to suspend any student immediately from Field Experience/practicum placed by the University, should they and/or school personnel have major concerns about the behaviour of the student on block practice or on other Field Experience/practicum activities. Students of teacher education programmes who demonstrate that they are unsuitable to enter the profession will be prevented from joining Field Experience/practicum or suspended from continuing such activities.

15.2 The relevant Associate Dean has the authority to prevent or suspend a student from other activities such as overseas immersion, internship, summer institute and academic exchange if the student, on the report of the Programme Leader/Coordinator, is found to be unsuitable.

15.3 Conversely, if an Field Experience Coordinator has strong grounds for concern that a student is experiencing serious bodily or emotional harm on account of the Field Experience/practicum placement, he/she will report this to the relevant Associate Dean for his/her approval to remove the student immediately from the placement school.

15.4 The decision of suspension will be relayed in confidence to the relevant programme personnel. If the student is dissatisfied with the decision, he/she can appeal to the relevant Faculty Dean.

16. Review of Board of Examiners’ Decisions on Discontinuation

16.1 A student who is required to discontinue his/her studies by the Board of Examiners under the General Academic Regulations will be notified by the Secretary of the Board of Examiners immediately after the decision for discontinuation is made, and be advised to

(i) send new/additional information he/she might have to the Chairperson of the Board of Examiners for consideration; and/or
(ii) ask for an opportunity to present his/her case before the Board of Examiners by the stipulated deadline, if he/she so wishes.

16.2 The Chairperson of the Board of Examiners, after consideration of the student’s submission, will decide if there are grounds for the case to be re-considered by the Board of Examiners. If the student asks for a hearing before the Board of Examiners, the Chairperson will decide whether to invite the student to appear before the full Board of Examiners, or to form a separate panel to hear the case, if deemed appropriate. The Panel should involve at least the Chairperson of the Board of Examiners or a senior academic staff member nominated by the
Facility Dean/Dean of Graduate School as Chairperson, the Programme Leader/Coordinator, and the relevant teaching staff from the subject department(s).

16.3 The Panel, after hearing of the case, will convey its recommendation to the Board of Examiners for the final decision. Depending on the recommendation, the Board of Examiners may make decisions through one of the following ways:

(i) decision by circulation; or

(ii) a full Board of Examiners meeting to be convened.

16.4 The decision of the Board of Examiners will then be conveyed to the student accordingly.

16.5 If the student feels that there is perceived injustice in the above procedures governing the review of the decision of the Board of Examiners on discontinuation, he/she can make an appeal to the Students’ Appeal Committee following the prevailing procedures stipulated in the Student Handbook. The decision of the Students’ Appeal Committee will be final.

17. Dismissal

17.1 Students who, upon verification, are found to have committed serious violations of the University’s regulations or Laws of Hong Kong, will be subject to dismissal by the University immediately after the findings have been substantiated.

18. Academic Honesty

18.1 Students are required to carry out all academic activities honestly and in good faith. Any act that contravenes standards of academic honesty such as plagiarism, impersonation, cheating in examinations and collusion is strictly prohibited by the University.

18.2 Any alleged cases of academic misconduct will be handled by the Head of the academic department concerned, who will then conduct a thorough investigation. An investigation report should be sent to the relevant Associate Dean who will consider whether there are prima facie grounds for referring the case to the Student Disciplinary Committee for further consideration, decision and action. Any proven act of academic misconduct may result in suspension of studies, postponement of graduation, dismissal from the University or other forms of penalties.

(Please refer to the Online Student Handbook at www.eduhk.hk/re/student_handbook for more information.)
1. Admission

1.1 Applicants for admission to a programme of the University are required to meet the stipulated entrance requirements of the programme. A waiver may be given to mature applicants with specific talents or achievements and a wealth of experience as defined in the general entrance requirements. The University does not discriminate on the basis of age, gender, race, nationality, religion, ethnic origin or disability upon admission. Students with disabilities are encouraged to inform the University of their needs so that timely assistance may be provided.

2. Registration

2.1 After being accepted by the University for admission to a programme, applicants must pay the requisite fees and complete the registration procedures as prescribed by the University. Current students will be re-registered automatically each semester throughout the period of study if fees have been paid up to date.

2.2 Major

2.2.1 All undergraduate students at the University are required to declare a major within their programme of study upon admission; and

2.2.2 Students are required to take the stipulated credit points of the declared major and complete all the specific course requirements of the declared major.

2.3 Double Major

2.3.1 Students admitted to a full-time undergraduate degree programme in 2012/13 and thereafter may be permitted to enroll in a second major in addition to their first major, subject to programme specific requirements and GPA requirement of normally 3.0 or above in the first year of study; and

2.3.2 Students are required to fulfill the course requirements of their first major. If they also fulfill the course requirements of their second major, they will have their second major recorded on their transcript.

2.4 Minor

2.4.1 Students on full-time undergraduate degree programmes can enroll in a minor;
2.4.2 Students admitted to a full-time undergraduate degree programme in 2012/13 and thereafter can enroll in a second minor in addition to their first minor (if any); and

2.4.3 Students who have fulfilled the course requirements of their minor(s) will have the minor(s) recorded on their transcript.

2.5 Double Counting

Double counting of up to nine credit points for a five-year programme and six credit points for a four-year programme to fulfill no more than two domain requirements (e.g. for both the first and second majors) within a full-time undergraduate degree programme may be allowed for students admitted in 2012/13 and thereafter.

2.6 Each student is issued with a Student Identity Card. The Card enables a student to gain access to the University’s facilities such as the Library, sports centre, and student halls.

2.7 Classes for all programmes are normally scheduled from Monday to Saturday.

3. Fees

3.1 Once admitted to the University, students (except those studying for Professional Development Programmes) are normally required to pay the following fees:

<table>
<thead>
<tr>
<th>Admission Acceptance Fee</th>
<th>Payable by a stipulated due date upon offer of admission</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition Fee</td>
<td>Payable in two installments, one in each semester by a stipulated due date</td>
</tr>
<tr>
<td>Caution Money</td>
<td>A deposit to make good any outstanding debts to the University incurred in, for example, damage to the property of the University. Unused caution money is converted to graduation fees.</td>
</tr>
<tr>
<td>Continuation Fee</td>
<td>A fee required for students who are allowed to retain their student status without having to attend any courses in the programme, e.g. cases of deferment of studies, cases pending for graduation and cases with suspension of studies.</td>
</tr>
<tr>
<td>Students’ Union Membership Fee</td>
<td>An annual fee chargeable to full-time students</td>
</tr>
<tr>
<td>Graduation Fee</td>
<td>A lump sum to cover the cost of congregation, including the cost of an award certificate; the lump sum can be covered by caution money subject to no outstanding claims</td>
</tr>
<tr>
<td>Other Fees</td>
<td>Information available on the websites of related units</td>
</tr>
</tbody>
</table>

3.2 Students who fail to settle overdue institutional fees without prior approval will be treated as having unofficially withdrawn from the programme. An administration fee will be charged to these students for reactivating their student status in addition to the full settlement of overdue fees. Re-instatement of the student status will not be considered for unofficially withdrawn students with prolonged overdue fees. They will be required to re-apply for admission to their programmes.

3.3 Students who have to extend their studies beyond the normal period of study in order to fulfill the requirements of the programme, major, second major, minor or second minor, are required to pay additional fees on a pro-rata basis according to the number of course/credit points (including Field Experience) taken in the extended period of study.

4. Course Enrollment

4.1 Students must ensure the completion of course registration before the course starts. Students who have not registered for any course in a semester (excluding the summer semester) will be considered to have withdrawn from their programme at the University (as stipulated in 14.1) unless deferment of studies has been approved by the relevant Programme Leader/Coordinator.

4.2 Registration in some courses is restricted to students having the necessary prerequisites.

4.3 Students can add or drop a course during the add-drop period or before the third class meeting. Students are permitted to drop a course after the add-drop period but before the examination period or the deadline for submission of final assignments, whichever applicable, only for strong personal reasons, such as serious illnesses; the grade W (Withdrawn) will be recorded on the students’ transcript.
4.4 Failure to attend a course does not automatically result in the course being dropped. Students who are reported for prolonged absence in a course without permission will be accorded a grade F (Fail) for the course (as stipulated in 13.2).

4.5 Students may audit a course without charge, subject to the permission of the course lecturer. They will not earn credit points for their audited courses.

4.6 A visiting student is not enrolled in any particular programme, but may take courses. Students who have completed their programme but wish to take further courses will be considered visiting students.

5. **Change of Programme/Major/Minor or Mode of Study**

5.1 New students will normally not be considered to transfer to another programme if the programmes are offered in the same mode of study and programmes of the same academic level, in particular the UGC-funded undergraduate programmes, during their first semester of registration.

5.2 A current student, who wishes for special reasons to change from one programme/major/minor or mode of study to another during the course of study should meet the stipulated requirements and consult the relevant Programme Leaders/Coordinators for advice and approval. The change, once approved, normally takes effect from the next semester/academic year. (Also see 8.4 for the maximum study period.)

6. **Double Registration**

6.1 Students who are enrolled in any full-time award-bearing programmes (lasting for one year or longer) of the University are not permitted to simultaneously register for another qualification at this University or a post-secondary qualification at any institutions except with prior approval by the Registrar. Violation of this regulation will lead to discontinuation of studies from the University. In case of doubt, students should seek advice from the Registry.

7. **Study Load**

7.1 Courses are the basic units of study into which students are registered and for which grades are assigned. Each course is assigned a number of credit points. Related courses are grouped under a learning domain.
The number of credit points assigned to a course is indicative of the number of hours of student effort, which include both contact hours and study time. In terms of contact hours, one credit point should normally be equivalent to one hour of teaching per week each for 13 teaching weeks in a semester. In terms of study time, students are normally expected to engage in no less than 2 hours of independent learning for each contact hour.

Students have to earn before graduation the number of credit points as required by the programmes of study. The minimum and maximum number of credit points is normally within the range of 12 (except summer semester) to 18 for taught courses in a semester for full-time programmes, whereas not more than 11 in a semester for part-time programmes. Students are not allowed to take zero credit point/course unless with prior approval.

8. Period of Study

The length of a programme is stipulated in the curriculum. To complete the curriculum, students are required to complete satisfactorily all the specified course requirements including coursework, school attachment, block practice, internship or similar programme required activities, as applicable.

Normally, there are two semesters in each academic year for academic activities, such as coursework, field experience, overseas immersion, internship and summer institute. In addition to the two regular semesters, a 6-week Summer Semester is offered for students of full-time undergraduate degree programmes who wish to study courses before the commencement of Semester 1 of the new academic year. Taking courses in Summer Semester is optional unless fixed in the programme curriculum.

The maximum period of study for a programme will be determined as follows:

<table>
<thead>
<tr>
<th>Length of Programme</th>
<th>Maximum Period of Study</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 year</td>
<td>2 years</td>
</tr>
<tr>
<td>2 years</td>
<td>3 years</td>
</tr>
<tr>
<td>3 years</td>
<td>5 years</td>
</tr>
<tr>
<td>4 years</td>
<td>6 years</td>
</tr>
<tr>
<td>5 years</td>
<td>7 years</td>
</tr>
</tbody>
</table>
8.4 Students are expected to graduate within the stipulated period of study, inclusive of any change of programmes/majors, periods of leave of absence, deferment of study, suspension of study and Field Experience activities. Students who fail to complete a programme within the maximum period of study will normally be required to discontinue their studies at the University (as stipulated in 12.1(v)). Students will have to pay additional fees on a pro-rata basis according to the number of course(s)/credit point(s), including Field Experience taken in the extended period of study.

8.5 Students who wish to extend their period of study beyond the maximum programme duration are required to apply in writing to obtain prior approval from the Programme Leader/Coordinator. Likewise, students who wish to pursue a fast track to complete a programme below its normal period of study should obtain prior approval accordingly.

9. Course Assessments and Grades

9.1 Grading System

9.1.1 Students’ performance in each course is expressed in terms of the following system:

<table>

<tr>
<th>Course Grade</th>

9.1.2 Students’ performance in a programme within a prescribed period of time, excluding courses without grade point equivalent, is described in a Programme GPA (Grade Point Average), which is calculated by the sum of the product of GPE# (Grade Point Equivalent)# earned for each course attempted (including failed courses) and its credit points within a programme, divided by the total number of credits attempted within a programme:

\[
\text{Programme GPA} = \frac{\text{Sum of (GPE x Course CP) within a programme}}{\text{Total no. of CPs within a programme}}
\]

# Grade Point Equivalent - as given in the table in 9.1.1 above.

9.2 Review of Course Grade

9.2.1 Resolving grade disagreements with the lecturers concerned

A student who disagrees with a course grade should approach the course lecturer or Field Experience Supervisor concerned immediately after the announcement of the assessment results approved by the Head of the course-offering unit. The course lecturer or Field Experience Supervisor may recommend a grade adjustment if he/she finds any technical errors (such as wrong score entries, or calculation errors when totaling marks) or after hearing the student’s representation. Recommendations for grade adjustments should reach the Chairperson of the Departmental Assessment Panel of the course-offering unit concerned or Field Experience Coordinator concerned with justifications for approval by the Head of the course-offering unit. The student will be informed of the result as soon as possible.
9.2.2 Formal procedures on grade reviews

If the student remains dissatisfied with the outcome after contacting the course lecturer or Field Experience Supervisor according to the procedures in paragraph 9.2.1, he/she may request for a formal review of his/her course grade(s), for one or more of the following reasons:

(i) the assessment result has been caused by a material error or irregularity in marking;

(ii) the assessment was not conducted in accordance with the General Academic Regulations and the assessment scheme for the programme concerned; and

(iii) there are special circumstances which the student has not been able to present to the relevant Head of the course-offering unit prior to the decision being made.

9.2.3 The formal request for a grade review should be made by the student to the respective Faculty Dean in writing within 14 working days after the announcement of the assessment results approved by the Head of the course-offering unit.

9.2.4 Upon receipt of the request, the Faculty Dean will pass it to the department/centre/office concerned. In light of the course-offering unit’s response, the Faculty Dean will decide whether there are prima facie grounds for review. If so, the Faculty Dean will inform the respective Head of the course-offering unit for follow-up action.

9.2.5 The Head of the course-offering unit will re-convene the Departmental Assessment Panel meeting to hear the case. The student concerned will be invited to attend the hearing with the right to be accompanied by one other current student or staff of the University. In the case of internal disagreements or other exceptional circumstances, an external view may be sought.

9.2.6 The Head of the course-offering unit after consideration of the case including the recommendation from the Departmental Assessment Panel, if any, will inform the student of the result normally within one month of the student’s request for review. Grades after review may be upgraded, downgraded or left unchanged. The decision of the Head of the course-offering unit is final.

9.3 Advanced Standing

9.3.1 Advanced standing will be granted to applicants who have completed a recognized programme at the University or other institutions before
admission to the University’s programme. Upon approval for advanced standing, the credits obtained from the recognized courses will be transferred to the programme of study and the minimum programme requirements in credits will be reduced. Students are allowed to complete the programme within a shorter period of time. Students who are admitted with advanced standing will not be eligible for credit transfer or course exemption at a later stage on the basis of their entry qualifications.

9.4 Credit Transfer

9.4.1 Credit Transfer may be granted for courses completed successfully at the University previously or another accredited tertiary institution.

9.4.1.1 The transferred courses will appear on the student’s transcript. The credit points transferred will be counted towards the graduation requirements but will be excluded from the calculation of the student’s GPA. Students may apply for credit transfer within the first two weeks of each semester in each academic year. For courses on offer in the summer semester, applications should be submitted one week before the commencement of the semester.

9.4.1.2 The total number of credit points transferred will not exceed 50% of the total credit points of the programme.

9.4.2 For a student who has successfully completed an approved student exchange programme of the University, normally a total of up to 15 credit points in regular Semester (and up to 6 credit points in Summer Semester) will be transferred to his/her undergraduate degree programme. Only the number of credits transferred will be recorded on the student’s transcript.

9.5 Course Exemption

(ii) ask for an opportunity to present his/her case before the Board of Examiners by the stipulated deadline, if he/she so wishes.

16.2 The Chairperson of the Board of Examiners, after consideration of the student’s submission, will decide if there are grounds for the case to be re-considered by the Board of Examiners. If the student asks for a hearing before the Board of Examiners, the Chairperson will decide whether to invite the student to appear before the full Board of Examiners, or to form a separate panel to hear the case, if deemed appropriate. The Panel should involve at least the Chairperson of the Board of Examiners or a senior academic staff member nominated by the Faculty Dean as Chairperson, the Programme Leader/Coordinator, and the relevant teaching staff from the subject department(s).

16.3 The Panel, after hearing of the case, will convey its recommendation to the Board of Examiners for the final decision. Depending on the recommendation, the Board of Examiners may make decisions through one of the following ways:

(i) decision by circulation; or

(ii) a full Board of Examiners meeting to be convened.

16.4 The decision of the Board of Examiners will then be conveyed to the student accordingly.

16.5 If the student feels that there is perceived injustice in the above procedures governing the review of the decision of the Board of Examiners on discontinuation, he/she can make an appeal to the Students’ Appeal Committee following the prevailing procedures stipulated in the Student Handbook. The decision of the Students’ Appeal Committee will be final.

Any proven act of academic misconduct may result in suspension of studies, postponement of graduation, dismissal from the University or other forms of penalties.

STUDENT FINANCIAL ASSISTANCE

1. Government Financial Assistance

The Working Family and Student Financial Assistance Agency (WFSFAA) of the Government administers three financial assistance schemes: the means-tested Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS), Financial Assistance Scheme for Post-secondary Students (FASP) and the Non-means Tested Loan Scheme (NLS). Applicants must have the right of abode in Hong Kong or have resided or have their homes in Hong Kong continuously for three complete years prior to the commencement of their programmes. This does not cover students staying in Hong Kong holding student visas.

1.1 Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS)

UGC-funded full-time students can apply for TSFS. Financial assistance under the TSFS is provided in the form of a grant and/or loan. The grant is to cover tuition fees, academic expenses and compulsory Students’ Union fees. The loan is for living expenses and is interest-bearing at the rate of 1.0% per annum, chargeable from the commencement of the repayment period which begins upon student’s graduation or leaving the University. The loan is repayable in 180 monthly installments within 15 years after graduation or termination of study.

Students up to their first degree level who are successful applicants of the TSFS, reside beyond 10 minutes’ walking distance from their normal place of study during term time and travel to school by public transport may be eligible for a travel subsidy. Postgraduate students and hall residents are not eligible.

The level of grant and/or loan offered in each case is determined by adjusted family income and net asset value per household member in relation to the tuition fees payable by the student and the academic expenses to be incurred on the student’s particular programme of studies. Normally, applications are open to continuing students in April, and to new students in September. Applicants should refer to the updated information on the Intranet.

Additional financial assistance in the form of grant may be awarded to the successful applicants of TSFS if they are required to participate in compulsory overseas field trips (Training/Internship/Placement/Exchange Programme will not be considered) which constitute the essential part of the programme. As the field trip/immersion programme is compulsory, it is presumed that all students of the same programme of study will be required to attend the trip/immersion
programme. Upon receiving further information on expenses of compulsory field trips of the TSFS applicants for the whole academic year from institutions, the WFSFAA will reassess the financial entitlements of all the relevant applicants and inform them of the revised financial entitlements accordingly. Therefore, applicants need not inform the WFSFAA of the details of the compulsory field trip individually, or request review of application on the grounds of expenses incurred on overseas compulsory field trip.

Hostel subsidy is offered under the Government’s Community Care Fund (CCF) Assistance Programme. Those undergraduates who have passed the means test of TSFS (i.e. with grant offered) and confirmed to have resided in student hostels provided by their institutions for at least 75% of the time during the semesters are eligible for the hostel subsidy. The subsidy is to be disbursed on semester basis. Eligible students need not file separate applications for the hostel subsidy. In the 2018/19 academic year, the amount of subsidy will be equal to the hostel fee payable or $9,180 per year / $4,590 per semester, whichever is lower. The actual amount of subsidy receivable by each eligible undergraduate is to be determined with respect to the student’s level of assistance assessed in the means test.

The Commission on Poverty approved on 27 March 2015 the allocation of funds from the CCF for enhancing the academic expenses grant for post-secondary students with special education needs and financial needs in order to strengthen the support for these students. Each eligible student will be offered an additional academic expenses grant of up to $8,680 in the 2018/19 academic year and the actual amount of subsidy receivable is to be determined with respect to the student’s level of assistance assessed in the means test of the TSFS.

Additional financial assistance in the form of loan may be provided to students who have financial difficulties to cover block practice expenditure. Students who have passed the means tested assessment of TSFS can apply by filling in the application for review form and submitting it to the WFSFAA.

1.2 Financial Assistance Scheme for Post-secondary Students (FASP)

Students pursuing full-time locally-accredited, self-financing higher diploma, degree or top-up degree programmes may apply for FASP. Financial assistance under the FASP is provided in the form of a grant and/or loan. The grant is to cover tuition fees (subject to a ceiling amount) and academic expenses. The loan is for living expenses and is interest-bearing at the rate of 1.0% per annum chargeable from the commencement of the repayment period (in 180 monthly installments within 15 years) which begins upon student’s graduation or leaving
the University. Students who are successful applicants of the FASP, reside beyond 10 minutes’ walking distance from their normal place of study during term time and travel to school by public transport may be eligible for a travel subsidy. Hall residents are not eligible.

The level of grant and/or loan offered in each case is determined by adjusted family income and net asset value per household member in relation to the tuition fees payable by the student and the academic expenses to be incurred on the student’s particular programme of studies. Normally, applications are open to continuing students in May and to new students in September. Applicants should refer to the updated information on the Intranet.

Hostel subsidy is offered under the Government’s Community Care Fund (CCF) Assistance Programme. Those undergraduates who have passed the means test of FASP (i.e. with grant offered) and confirmed to have resided in student hostels provided by their institutions for at least 75% of the time during the semesters are eligible for the hostel subsidy. The subsidy is to be disbursed on semester basis. Eligible students need not file separate applications for the hostel subsidy. In the 2018/19 academic year, the amount of subsidy will be equal to the hostel fee payable or $9,180 per year / $4,590 per semester, whichever is lower. The actual amount of subsidy receivable by each eligible undergraduate is to be determined with respect to the student’s level of assistance assessed under FASP.

The Commission on Poverty approved on 12 June 2014 the allocation of funds from the Community Care Fund (CCF) for providing an additional academic expenses grant for needy students pursuing locally-accredited self-financing post-secondary programmes. Each eligible student will be offered an additional academic expenses grant up to $2,280 in a year in the 2018/19 academic year. The actual amount receivable by each eligible student is to be determined with respect to the student’s level of assistance assessed in the means test.

The Commission on Poverty approved on 27 March 2015 the allocation of funds from the CCF for enhancing the academic expenses grant for post-secondary students with special education needs and financial needs in order to strengthen the support for these students. Each eligible student will be offered an additional academic expenses grant of up to $8,680 in the 2018/19 academic year and the actual amount of subsidy receivable is to be determined with respect to the student’s level of assistance assessed in the means test.
13 Non-means Tested Loan Scheme (NLS)

The NLS operates on a full-cost recovery basis. Interest rate is set at the government’s no-gain-no-loss rate which is currently set at 3.951% below the average best lending rate of the note-issuing banks, plus a risk-adjusted factor which seeks to cover the government’s risk in disbursing unsecured loans once the loan is drawn down and throughout the repayment period until the NLS loans is fully repaid. The interest rate will be reviewed at the end of each month. An administration fee to cover the full costs of processing and administering the NLS loans is chargeable for each application, and annually thereafter until the NLS loan(s) and the interests are fully repaid. The administration fee is subject to review annually. The NLS loan(s) and the interest accrued are repayable in 180 equal monthly installments within 15 years after graduation or termination of study.

The NLS provides loans to students of eligible full-time and part-time programmes:

(a) For Students who are Eligible for TSFS

Eligible full-time students who have applied for assistance under the TSFS may also consider applying for loans under the Non-means Tested Loan Scheme for Full-time Tertiary Students (NLSFT) to settle their tuition fees upon receipt of TSFS results. Alternatively, students can submit a separate application for NLSFT only. Normally, applications are open to continuing students in April, and to new students in September. Applicants should refer to the updated information on the Intranet.

NLSFT loans are solely used to settle tuition fees and will be paid directly to academic institutions concerned. Students who receive financial assistance under the TSFS may obtain loans under the NLSFT up to the difference between the maximum financial assistance under the TSFS and the amount of financial assistance they may receive under the TSFS, subject to the NLSFT loan maximum (equivalent to the tuition fees payable) not being exceeded. Students who fail to obtain assistance under the TSFS or have not applied for assistance under the TSFS may apply for NLSFT loans up to the maximum amount of their tuition fees payable.

(b) For Students who are Eligible for FASP

Eligible full-time students who have applied for assistance under the FASP may also consider applying for loans under the Non-means Tested Loan Scheme for Post-secondary Students (NLSPS) to settle their tuition fees upon receipt of FASP results. Alternatively, students can submit a separate
application for NLSPS only. Applicants should refer to the updated information on the Intranet.

NLSPS loans will be paid to the designated bank accounts of the students. Students who receive financial assistance under the FASP may obtain loans under the NLSPS up to the difference between the amount of financial assistance they may receive under the FASP and the maximum financial assistance they may receive under the FASP and NLSPS, subject to the NLSPS loan maximum (equivalent to the tuition fee payable) not being exceeded. Students who fail to obtain assistance under the FASP or have not applied for assistance under the FASP may apply for NLSPS loans up to the maximum amount of their tuition fees payable for the course under application.

(c) For Students of Part-time Programmes or Full-time Self-financing Postgraduate Programmes who are not eligible for TSFS or FASP

Students pursuing part-time programmes or full-time self-financing postgraduate programmes may apply for the Extended Non-means-tested Loan Scheme (ENLS) to settle tuition fees. The maximum amount of loan is the total tuition fees payable in the academic year. Students may apply for an ENLS loan if all or part of the tuition fees have been paid (provided that the course has not been completed at the time of application) or have not paid any part of the tuition fees.

Applications must be submitted to the WFSFAA in person. The deadline for application of the 2018/19 academic year is 31 July 2019 and all the lectures of course(s) under application of the 2018/19 academic year have not been completed at the time of application submission. A list of eligible courses is available at the WFSFAA’s homepage.

1.4 Scheme for Subsidy on Exchange for Post-secondary Students (SSE) / Scheme for Subsidy on Exchange to “Belt and Road” Regions for Post-secondary Students (SSEBR)

Established in 2015 and 2016, the Scheme for Subsidy on Exchange for Post-secondary Students (SSE) and Scheme for Subsidy on Exchange to “Belt and Road” Regions for Post-secondary Students (SSEBR) are offered by Education Bureau (EDB) of the Hong Kong Special Administrative Region to support financially needy students to participate in outbound exchange activities. Means-tested grant up to $60,000 (for SSE) and $53,000 (for SSEBR) will be provided for financially needy local students (both publicly-funded and self-financing) of full-time locally-accredited undergraduate (including top-up) programmes. The maximum amount of subsidy will make reference to the
destination and duration components with the approved level of means test (in terms of percentage of full grant) based on the latest available result from WFSFAA.

The information given above is subject to change. Details and latest information of the above Schemes can be obtained from the SAO’s homepage at https://www.eduhk.hk/sao/?p=1847.
