PART I – APPLICATION INFORMATION

1 Hall Admission Policy in 2026/27 2026/27 學生宿舍政策

The Education University of Hong Kong regards hall life education as an integral part of non-formal education. Recognizing the limited number of hall places available, the University periodically reviews the policies governing students' admission to student halls in alignment with its strategic goals. The table below presents the Hall Admission Policy for the academic year of 2026/27, which was approved by the Student Affairs Committee (SAC) in March 2024. It also outlines the allocation priority for different groups of eligible students who apply for hall residence.

香港教育大學高度重視舍堂生活教育，並視之為非正規教育的重要部分。由於宿位有限，大學將根據其策略目標定期審視及制定學生宿舍政策。下表列出了 2026/27 學年的學生宿舍政策及各合資格學生組別分配宿位的優先次序，該政策已於 2024 年 3 月獲學生事務委員會的批准。

To promote student-residents' active participation in HLE activities, starting from the 2023/24 academic year, each student-resident is required to attend **at least ONE activity per semester from each theme under Warden's Series and any ONE activity from any theme under the Wellness Series**. Student-residents' activity attendance will be recorded by the respective HLE Team. Student-residents who fail to meet the attendance requirement in each semester will result in hall point deduction/semester on the hall application for the next residential year. **For student-residents who fail to attend one activity from each theme under Warden's Series and one activity from either theme under Wellness Series in a semester, 2 points will be deducted for each theme per semester.** Due to the system constraint, only the HLE activities held from 1 September 2025 to 31 March 2026 will be counted in the HLE fulfillment requirements for 2026/27 hall admission exercise. For student-residents who have proven genuine difficulties in fulfilling the requirements, such as illness, FE, etc., a make-up session can be offered. The concerned student-resident may only be enrolled in one category to prevent abuse of the discretion. The requirements will be periodically reviewed. Please refer to the latest announcements for the most up-to-date requirements. *(Note: The HLE attendance requirement is not applicable to Research Postgraduate students.)*

The modifications to the Hall Point System will be considered and endorsed by the Sub-committee on Hall Management, and approved by the Student Affairs Committee before implementation.

Below is the Hall Point System for 2026/27 onwards, which was approved by the Student Affairs Committee in February 2026.

SECTION A Daily Commuting Time Based on Home Location

- The maximum point for this Section is **capped at 40 points** based on students' daily travelling time to the University.

- For applicants with **local student status using non-local address beyond Shenzhen of Mainland China**, the hall point in this Section will be **forfeited** as it was resolved by the Student Affairs Committee that Shenzhen of Mainland China should be the **farthest acceptable commuting distance to and back from the University on a daily basis**.
- Home locations below are listed in **alphabetical order**. All information was checked via the HKeMobility of the Transport Department by the end of January and early March 2026.

Notes on calculation of hall points based on daily community time

1. Hall point in Daily Commuting Time Based on Home Location refers to the travelling time as given by the HKeMobility of the Transport Department, checked and justified by the end of January to early March 2026, according to the following parameters:

   (i) By clicking "more..." in "Route Search", the following settings will be adopted:

   - Service Mode: All services
   - Walking Distance: Longer;
   - Walking Route: Normal
   - Fare: Adult

   (ii) Input home location in "A" and select the first option with public transport services (e.g. bus / minibus / transport terminus, etc.) in the pull-down menu as origin. If there is no such an option with public transport services, select the first location among the options in "A". If there is a designated location listed in a blanket, for example Tai Wai (Tin Sam), only the location listed inside the blanket, i.e. 'Tin Sam' will "A" be input in "A" "A" for checking travelling time;

   (iii) If there is no search result for the first location selected in "A", the second location will be selected instead;

   (iv) Input "The Education University of Hong Kong Minibus Terminus (Green Mini Bus) / 香港教育大學小巴總站(專線小巴)" in "B".

   (v) The shortest estimated travelling time would be used as reference;

   (vi) If there is more than one shortest travelling time, the first travelling method will be used as reference.

2. The travelling time determined by the HKeMobility is not necessarily the actual travelling time that a student spends nor the actual transport modes that he/she takes. However, it provides a common base and a reference point to assign a hall point which is considered more standardized.

3. Locations which are not included in hall point system can be checked via the HKeMobility of the Transport Department, https://www.hkemobility.gov.hk/en/route-search/pt, for the travelling time so as to match with appropriate address code.
