Part II

The University’s Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Undergraduate, Taught Postgraduate and Research Postgraduate students consist of the following three domains (i.e. in short “PEER & I”):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:
1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
4a. Oral Communication Skills
4b. Written Communication Skills
5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives
1. **Course Synopsis**

The course explores the global position of Hong Kong as “Asia’s World City” with an emphasis on its external relations. The course also explores the theoretical assumptions behind the “Asia’s World City” discourse and the implementation and execution of such a discourse by the HKSAR Government, as well as the multilateral interaction between Hong Kong and other global actors. By drawing upon comparative cases of the branding exercises of other “world cities”, the course concludes by forecasting the long-term sustainability of Hong Kong as a global city.

2. **Course Intended Learning Outcomes (CILOs)**

*Upon completion of this course, students will be able to:*

- CILO₁ examine critically the theoretical assumptions behind developing “world cities”.
- CILO₂ understand the bilateral and multilateral relations between Hong Kong and other global actors.
- CILO₃ develop critical thinking skills.
- CILO₄ demonstrate awareness of the requirements to maintain Hong Kong as a global city.
