### Part II

The University's Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Undergraduate, Taught Postgraduate and Research Postgraduate students consist of the following three domains (i.e. in short "PEER & I"):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:

1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
- 4a. Oral Communication Skills
- 4b. Written Communication Skills
5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives

## 1. Course Synopsis

This course provides a comprehensive overview of geographical issues of Hong Kong, including population, urban development, housing, transportation, recreation and environmental changes. This course equips students with essential geographical concepts to analyze developmental and environmental issues such as population structure, urbanization, green city, spatial inequality, mobility and accessibility, infrastructure and development, as well as regional development. By the end of the course, students will be trained to recognize the interactions between human systems and landscapes, problems and challenges caused by development processes, and propose solutions to deal with major development issues of Hong Kong.

## 2. Course Intended Learning Outcomes (CILOs)

*Upon completion of this course, students will be able to:*

CILO<sub>1</sub> Understand the basic geographical knowledge to explain how space, people and society are interrelated;

CILO<sub>2</sub> Demonstrate an awareness of the dynamics causing social and developmental changes at the local and regional levels;

CILO<sub>3</sub> Develop skills to conduct critical analyses on social trends and transformation of Hong Kong;

CILO<sub>4</sub> Demonstrate the ability to propose solutions to cope with social and development challenges of Hong Kong.
