

THE EDUCATION UNIVERSITY OF HONG KONG

Honours Project I: Research Methods and Proposal

Part I

Programme Title	:	Bachelor of Social Sciences (Honours) in Global and Environmental Studies Bachelor of Social Sciences (Honours) in Global and Hong Kong Studies
Programme QF Level	:	5
Course Title	:	Honours Project I: Research Methods and Proposal (to be offered in Year 3 Sem II)
Course Code	:	SSC4298
Departments	:	Social Sciences
Credit Points	:	3
Contact Hours	:	39 contact hours
Pre-requisite(s)	:	Nil
Medium of Instruction	:	English
Course Level	:	4

Part II

The University's Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Undergraduate, Taught Postgraduate and Research Postgraduate students consist of the following three domains (i.e. in short "PEER & I"):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:

1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
- 4a. Oral Communication Skills
- 4b. Written Communication Skills
5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives

1. Course Synopsis

This course aims to develop students as learners, researchers, inquirers and knowledge creators in the social science disciplines; and prepare them for conducting a research-based or an inquiry-based project in Honours Project II: Research Report. It consists of two parts:

Part A “Generic Research Methods” (1.5 cps) introduces basic research knowledge and principles of research methods for students to use and/or conduct research in the social science disciplines, and ethical issues in the research process. It emphasises students’ roles as users of research as well as researchers themselves. Topics include recognising the value of social science research, understanding the process of research, the search and effective use of literature, identifying research topic and questions, features of research proposal and research report, ethical issues in social science research and reliability and validity of different research methods. Students study short online units and attend face-to-face tutorials in which they are guided to connect and consolidate online learning with in-class learning activities. The assessment tasks include online and in-class exercises on research methods.

Part B “Methods for Specific Area in Preparation of Honours Project” (1.5 cps) prepares students to develop a proposal for conducting a research-based study in their chosen areas. Topics may include understanding the purposes and methods of sampling, quantitative research methods (e.g., survey research, experimental study, descriptive statistics and correlation, inferential statistics and data analysis with SPSS), qualitative research methods (e.g., interview, observation, documents and artefacts, case study), mixed-methods research, research in comparative studies and philosophical methods in social science research. Students will be guided to identify a topic, conduct a literature review, select appropriate methods of data collection and analysis/inquiry, and write a proposal.

2. Course Intended Learning Outcomes (CILOs)

Upon completion of this course, students will be able to:

- CILO1 demonstrate an understanding of the basic principles of research methods in related social science disciplines, both qualitative and quantitative;
- CILO2 show analytical skills in research and the awareness of research ethics;
- CILO3 write a literature review to examine the existing theories and knowledge in relation to the research topic;
- CILO4 select appropriate methods for the collection and analysis of data;
- CILO5 write a research proposal to form the basis of the study in Honours Project II: Research Report.

3. Content, CILOs and Teaching & Learning Activities

Course Content	CILOs	Suggested Teaching & Learning Activities
Part A “Generic Research Methods” (1.5 cps)		
Fundamental elements in research <ul style="list-style-type: none"> • Introduction to research process • Literature search and review • Identifying research topic and question 	CILO ₁	Online lessons, tutorials, and group discussions
Approaches to research <ul style="list-style-type: none"> • Introduction to social sciences research • Fundamentals of research paradigms (e.g., quantitative, qualitative and mixed-methods, action research) • Major methodological approaches to social research • Reliability and validity 	CILO ₁	

Course Content	CILOs	Suggested Teaching & Learning Activities
Ethical considerations in the research endeavour <ul style="list-style-type: none"> Ethics for student research project with a focus on human participants 	<i>CILO₂</i>	Lectures and tutorials
Part B “Methods for Specific Area in Preparation of Honours Project” (1.5 cps)		
Understanding of research methods <ul style="list-style-type: none"> Basic concepts on the procedures, designs and methods, such as sampling methods. Major research methods, such as quantitative research methods (e.g. survey research), qualitative research methods (e.g. interview, observation), and mixed-methods research Skills for data analysis and presentation 	<i>CILO₃₋₅</i>	Lectures, tutorials, literature review, case studies, group discussions, presentations and self-study
Understanding of research proposal writing <ul style="list-style-type: none"> Major concerns of proposal writing (content, structure and ethical issues). Research proposal development: statement of the problem, research design and literature review. 	<i>CILO₅</i>	Tutorials, workshops, presentations and consultations

4. Assessment

Assessment Tasks	Weighting (%)	CILO
Online exercises and tutorial exercises on “Generic Research Methods”	50%	<i>CILO₁₋₅</i>
A 2,000-word project proposal which includes the statement of the problem, the design of the research and a review of literature	50%	<i>CILO₁₋₆</i>

Please note: Students are required to obtain a Pass in both Part A and Part B in order to get a Pass in HP I. As HP I is a pre-requisite for HP II, students must obtain a Pass in HP I in a given Specific Area in order to progress to HP II of the same Specific Area. Students who fail either Part A or Part B (but not both Part A and Part B) will be given the opportunity to do the remedial works/assignments.
