Part II

The University's Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Undergraduate, Taught Postgraduate and Research Postgraduate students consist of the following three domains (i.e. in short "PEER & I"):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:

1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
- 4a. Oral Communication Skills
- 4b. Written Communication Skills
5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives

1. Course Synopsis

This course introduces the theories and practices of development by exposing students to real world developmental problems in the Guangdong-Hong Kong-Macao Greater Bay Area (GBA). The theories highlight the importance of institutions in the process of development. Meanwhile, the case studies cover some of the most pressing developmental issues in the GBA, such as corruption, education, pollution, healthcare, and housing. Students complete the course with practical knowledge and skills to frame developmental problems, develop and evaluate innovative solutions, analyze institutional environments, make choices under uncertainty, and ensure commitment to development plans.

2. Course Intended Learning Outcomes (CILOs)

Upon completion of this course, students will be able to:

CILO₁ appraise the importance of institutional decision making in development;

CILO₂ analyze the causes of problems in development;

CILO₃ describe the key developmental issues in the Greater Bay Area; and

CILO₄ evaluate solutions to developmental challenges.
