

THE EDUCATION UNIVERSITY OF HONG KONG

Course Outline

Part I

Programme Title	: Bachelor of Social Sciences (Honours) in Social Entrepreneurship and Development Studies
Programme QF Level	: 5
Course Title	: Leadership in Social Innovation and Development
Course Code	: PUA3016
Department	: Social Sciences and Policy Studies
Credit Points	: 3
Contact Hours	: 39
Pre-requisite(s)	: Nil
Medium of Instruction	: EMI
Course Level	: 3

Part II

The University's Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Undergraduate, Taught Postgraduate and Research Postgraduate students consist of the following three domains (i.e. in short "PEER & I"):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:

1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
- 4a. Oral Communication Skills
- 4b. Written Communication Skills
5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives

1. Course Synopsis

The past decade has seen a phenomenal surge of interest in social innovation as a new way to address pressing economic, social and environmental challenges facing local, national and global development. The demand for social innovation is made more urgent in the context of economic recession and fiscal constraints when the widening gap between what the governments provide and the socio-economic development needs of the citizens propels the entrance of a variety of new socially responsible innovators and the emergence of various socially innovative and entrepreneurial initiatives in the societal problem-solving arena. This course aims to prepare students to develop a critical understanding of the potential, strength and limitation of the emerging strategies and practices of social innovations as well as the way in which social innovation and responsible leadership can bring about positive social change and sustainable development outcomes. Instructive case studies of socially innovative action in a diversity of development contexts will be examined to reveal the emergence of new ways of doing things in public, private, and not-for-profit sectors to deal with challenges to inclusive social and economic development. The objective is to equip student with the concepts, mindset, skills and relationships needed for them to develop creative and innovative solutions cutting across organizational, sectoral and disciplinary boundaries.

2. Course Intended Learning Outcomes (CILOs)

Upon completion of this course, students will be able to:

- CILO₁: explain how various forms of social innovation and social enterprise strategies drive economic and social transformation;
- CILO₂: critically appraise the changing relationship between the government, business and the not-for-profit sectors in social innovation and entrepreneurship;
- CILO₃: analyze the framework conditions, governance approaches and policy instruments for fostering the development and diffusion of social innovations; and
- CILO₄: apply their acquired knowledge to develop their own innovative solutions to selected development problems.

3. Content, CILOs and Teaching & Learning Activities

Course Content	CILOs	Suggested Teaching & Learning Activities
a. Social innovation: concept, theory and practice b. Social economy and social enterprise	CILO _{1,2,3}	<ul style="list-style-type: none">Lectures: presentation and discussion of the concepts, theories, practices and synthesis of key referencesGroup work: students to present their innovative solutions to chosen problems; comment on the presentationsGuest lecture by practitioners: provide with real life examples of best practices in social innovation and entrepreneurship
c. Social innovation and poverty d. Social innovation and employment e. Social innovation and housing f. Social innovation and environmental sustainability	CILO _{2,3,4}	
g. Social innovation and community development h. Good governance for scaling social innovations	CILO _{2,3}
