Part II

The University's Graduate Attributes and seven Generic Intended Learning Outcomes (GILOs) represent the attributes of ideal EdUHK graduates and their expected qualities respectively. Learning outcomes work coherently at the University (GILOs), programme (Programme Intended Learning Outcomes) and course (Course Intended Learning Outcomes) levels to achieve the goal of nurturing students with important graduate attributes.

In gist, the Graduate Attributes for Sub-degree, Undergraduate, Taught Postgraduate, Professional Doctorate and Research Postgraduate students consist of the following three domains (i.e. in short "PEER & I"):

- Professional Excellence;
- Ethical Responsibility; &
- Innovation.

The descriptors under these three domains are different for the three groups of students in order to reflect the respective level of Graduate Attributes.

The seven GILOs are:

1. Problem Solving Skills
2. Critical Thinking Skills
3. Creative Thinking Skills
- 4a. Oral Communication Skills
- 4b. Written Communication Skills
5. Social Interaction Skills
6. Ethical Decision Making
7. Global Perspectives

1. Course Synopsis

Ecotourism has been regarded as an environmentally friendly mode of tourism since the past decades and it has been regarded as an important niche to help in achieving sustainability in the tourism industry. Countries endowed with rich natural resources actively develop and promote ecotourism. This course introduces the concepts and the principles of ecotourism. Various ecotourism practices of local and overseas countries will be examined to equip students with the fundamental knowledge of the tourism industry. This course is useful to students with different background in arts, education, social sciences, and science disciplines.

2. Course Intended Learning Outcomes (CILOs)

Upon completion of this course, students will be able to:

- CILO₁: demonstrate a high level of competence in understanding the concepts and principles of ecotourism
